Six Die When High Test Gasoline Explodes

INSURANCE BONUS BILL HAS NOW BECOME LAW

Houston Alumni Ask Stark and Regent to Quit

$200,000 Loss Sustained at Plant Near St. Paul

ST. PAUL, Minn., May 19.—Six men were burned, two perhaps fatnlly, when a car load of high test gasoline exploded and set fire to the Craig Oil and Refining Com pany plant. Three hundred thousand gallons of gasoline and lubricants as well as all buildings and tanks were destroyed. The loss is estimated at $200,000.

PEDDY REACHES WASHINGTON FOR FINAL CONTEST

WASHINGTON, May 19.—George F. B. Peddy, contesting Mayfield's seat, arrived here to attend the hearings which will be resumed tomorrow. He expressed satisfaction over progress of the case. Peddy's attorneys are to question N. N. Turney, cashier of the Imperial Palace of the Klan at Atlanta, in an effort to establish that the Klan sent large sums of money to Texas to help elect Mayfield.

METHODISTS SET ASIDE RESOLVE AGAINST WAR

SPRINGFIELD, Mass., May 19.—The "anti war" resolution of the committee on sate of the church of the Methodist Episcopal General Conference was set aside and a special committee was authorized to deal with the question. The resolution was adopted by an overwhelming vote. It was to have been presented to the General Conference today.

FIRST BAPTIST CHURCH TEAM DEFEATS FALON

The First Baptist team defeated Falon Saturday by the score of 9 to 3. Falon hit safely five times while the Baptist boys secured 16 safties.

F. B. C.	9	16	3
Falon	3	5	2

Batteries—F. B. C. Brown, Howard and Auld; Falon, Jackson and Williams.

Senate Overrides Veto Of President Coolidge By Vote of 59 to 26

WASHINGTON, May 19.—The bonus bill became a law today when the Senate overrode President Coolidge's veto by a vote of 59 to 26, which is two more than necessary.

Eradication of Tick In County Shows Progress

It may be well to call attention to the beginning of tick eradication work in this county, the law, and the progress made within the last year.

Some people who, doubtless because of their socialistic trend of mind, oppose everything that really tends to help the country, have lost sight of the fact that when this law was first enacted, it provided that the State be cut into three zones. Then dipping was not made compulsory in this county until the people VOTED on it and in this way made the law effective in this county. Real democrats are always willing to abide by what the majority does where an election is held. We have no right to complain now, and, as in the case of all laws, they should be respected or repealed.

Because of the splendid progress made in tick eradication work within the last year, we can well afford to lay aside any prejudiceness we may have against it. No person has the right to criticise the work until he or she has personally visited the vats and in this way learn its true conditions. The people are dipping closer than they ever dipped. (We are only dipping each two weeks in the infected area.) The county is now 95 cr cent free of fever ticks, and we can actually finish this year, if given proper co-operation. Lay down your hammers and join in the fight to get the last fever tick in this county this year. By all means help us prevent the bringing of cattle from Freestone, Leon and Robertson counties, without a permit. Why clean up and then let them run it over us and thereby have to clean up again? We expect to prosecute any person who violates this law, from now on. Give us your moral support.

Yours to serve,
T. J. FORTENBURRY,
Inspector in Charge.

THE WEATHER.

East Texas—Tonight and Tuesday unsettled.

West Texas—Tonight and Tuesday unsettled; probably showers in he Panhandle.

COOLIDGE HOLDS EARLY CAUCUS REGARDING HIS VETO

WASHINGTON, May 19.—President Coolidge has recovered from a severe cold and had a breakfast conference with seven senators whose votes on the soldier bonus bill scheduled in the Senate for today or tomorrow are classed as "doubtful." Five Senators said they would support the bonus and not support the veto. Two are still open to persuasion. Senator Smoot, who called on the president after the conference, said he believed the veto would be overridden.

A little group of "doubtful Republicans held the fate of the soldiers bonus bill in their hand as the Senate prepared to take the measure up for a vote on the Presiden's veto."

If they vote to over-ride the veto the bill will become a law; if they vote to sustain Mr. Coolidge, the bill is killed for this session.

As the measure came before the Senate for the test, the situation was as follows:

Five Senators certainly will not vote because of their absence. These are Senators Greene, LaFollette, Couzens, Lenroot and McCormick.

Assuming all other Senator vote as is expected, there will be 91 votes cast requiring 61 votes to override the veto or 31 to sustain it.

Senator Curtis, Republican whip, author of the bill, will move today at 2 p. m. to take it up. Anti-bonus leaders threaten to stage a parliamentary skirmish to avoid taking up the measure and for this reason it is not expected that the vote will come before tomorrow.

Carpentier in America to Fight Gibbons.

GEORGES CARPENTIER

Georges Carpentier, French heavyweight, is pictured as he arrived in New York for his fight with Tommy Gibbons, St. Paul heavy, in Michigan City, Ind.

First Citizens Meet Wednesday On Centennial

DALLAS, Texas, May 19.—Seventy one of the first citizens of Texas will sit around a council table at Austin, May 21, to further consider importnat preliminary activities looking toward the celebration of one hundred years of American control and development of the Lone Star State.

"The celebration that is in the making will be built along lines big enough to draw the attention of the world to Texas and to bring through our gates a procession of world folks comparable with the greatest

(Continued on Page Three)

Mrs. Z. Rochelle is visiting relatives in Louisiana. She will return by way of her former home at Marshall.

Albert Arstein was here Sunday from Austin.

Mrs. A. M. Kirkham is visiting in Dallas and Cleburne.

1,000 Men Thrown Out Of Work By Big Blaze Of Spectacular Extent

NEW YORK, May 19.—Firemen traveling on huge moving cranes battled flames early today which caused losses to the plant of the Federal Ship Building Company, Kearny, N. J., estimated at $1,600,000.

Four moving cranes in one of the buildings were used as fighting tops and from these vantage points firemen shot streams of water into the burning plate shop and pattern building.

More than 1,000 men were thrown out of work temporarily by the blaze.

Humble Company Posts Price of Crude Back

The Humble Company today announced an advance of Meia and Powell crude amounting to 25 cents. The Magnolia is understood to have followed suit. The Humble Company's order is retroactive, dating back to several days ago when this company and the Magnolia posted 25 cents reduction on Mexia and Powell crude. No other companies posted reductions so the new price is the same as formerly paid for crude products from these two pools, $2.00 per barrel.

U. S. AIRMEN REACH ISLAND

TOKIO, May 19.—The American flyers arrived at the Island of Yetoforu this afternoon.

Naming Neff for President Arouses Indignation of Ex-Students Living in Houston

AUSTIN, Texas, May 19.—Prominent Houston alumni of the Texas University wired Luther Stark of Orange, chairman of the University Regents, to resign from all University positions or else they will not participate in the fund being raised for a stadium. They also request the resignation of Dr. Joe S. Wooten of Austin as Regent. The action is the result of the regents tendering the University Presidency to the governor.

French Sport Fans Hiss U. S. Flag When Americans Beat Them at Rugby

PARIS, May 19.—Followng official expressions of regret for the conduct of the crowd after the American rugby team had defeated the French team, 17 to 3, in the Olympic championship match yesterday, it is probable that the unpleasant experience of the Americans may be officially forgotten.

Most of the Paris papers today deplored the incidents that occurred during the match and after it when the American flag was hissed and jeered as it was pulled to the top of the staff, when the strains of the Star Spangled Banner were almost drowned out by jeers and when two American students were knocked out by cane wielders in the stands.

Paris papers agreed that the Americans played cleanly and that the hostility of the crowd was deplorable.

Franz Reichel, secretary of the French Olympic committee, said the "action of the crowd was abominable." He was at a loss to offer an explanation for the feeling against the Americans and he asked the players to believe that the demonstration did not represent the feeling of the better element of the French people.

Rene Lassore, captain of the French team, said his players had no cause for complaint. "We were beaten," he said, "by a better conditioned team. We were beaten fairly and I can't understand what caused the crowd to act like it did."

Charles H. Sherrill, New York, a member of the International Olympic Committee, said that the crowd was very unfair and that it was the cleanest game of rugby he ever had seen.

The American players were so overjoyed at having won the championship by such a decisive score against one of the finest teams in Europe that they were inclined to "let it go."

After they had been cooled off, the American players felt so good that they accepted an invitation to attend the banquet given by the French Football Federation.

B. F. Larson, of Provo, Utah, and Gideon W. Nelson, De Kalb, Ill., two American students who were knocked out in the stands when the flag was hissed, were not seriously injured.

Nelson was around today looking for a "big fellow with a lot of whiskers," who bounced a cane off his skull.

AMBASSADOR TO JAPAN SEEKS TO RETIRE

By A. L. BRADFORD
(United Press Staff Correspondent)

WASHINGTON, May 19.—Cyrus E. Woods, American Ambassador to Japan, has asked to be relieved of his duties in Tokio.

His resignation, however, has been tendered, it was officially explained here today, because of the ill health of Mrs. Wood's mother and has no connection whatever with the present crisis in relations between the United States and Japan over the Japanese exclusion provision of the immigration bill.

Oscar Sanders, of Waco, was in the city Monday on business.

Prizes Awarded At Shrine Show Saturday Night

The Mexia Shrine Club closed its Circus in Mexia Saturday night to a packed tent. The crowds lingered until the midnight hour and were even then reluctant to leave.

The popularity campaign which was conducted by the Shriners during the week of the circus and participated n by several Mexia ladies, closed at 4 o'clock Saturday afternoon to afford the judges ample time to make a correct count of the votes. Each ticket sold by the young ladies during the week counted as two votes in the campaign.

The prizes were awarded at the circus tent Saturday night and the following is the result of the efforts put forth by three young ladies remaning in the contest to the end:

First prize, diamond ring—Miss Jessie Mae Sherrer.

Second prize, string of pearls—Miss Ann Krinshaw.

Third prize, beaded bag—Miss Elise Gibson.

Miss Dorothy Flynn, who was a contestant early in the race, withdrew during the week and turned her support to Miss Sherrer.

We are informed by an official of the Shrine club this morning that these young lades have won the deep appreciation of the Shriners for the important part they played in making the undertaking a financial success.

A complete check of the profits of the show have not been made at this writing, but it is known that the circus was successful, even beyond the expectation of some, and the profts of the show are gratifying.

Many Shriners, ladies and friends of the organization are to be lauded for their hard work and co-ojeration during circus week and the Mexia Shrine Club makes the statement that Mexia shall not be disappointed in the organization doing its bit for civic progress in Mexia.

The President of the club will have a statement to make to the public at a later date as to what the Shrine Club can and will do for Mexia.

This, like all other organizations in Mexia can only do for Mexia what she will let them and without the whole hearted support of the community they will be held back in their progress.

MINERS STRIKE IN GERMANY THREATENS TROUBLE

By CARL D. GROAT
(United Press Staff Correspondent)

BERLIN, May 19.—Desperation has seized the striking miners of the Ruhr. Their women folk are showing the way to violence.

The strikers refused flatly to accept an arbitration award which lengthens their hours; the mine owners, meeting at Essen, accepted the arbitration. The government, according to custom has no choice but to declare the award binding.

Tremendous bitterness, suffering and hunger among the strikers and their families makes it seem doubtful however, that the Government's declaration will have any effect.

Wives of the miners took the initiative in sabotage. At Gelsenkirchen angry women stormed the City Hall, demanding issuance of rations.

Rioting, led by miners' wives, broke out at Rotthausen and police with drawn batons had to intervene.

In the mines of Hattigen, women rolled up their sleeves, seized rakes and picks and hauled fires from the pump furnaces, so that the mines are in great danger of being flooded. They brandished heated rakes in the face of men strikebreakers, driving the latter from the mines.

SUMPTER STREET SCHOOL PLANS OUTDOOR AFFAIR

Friday night, May 23rd is to be the big night of the year at Sumpter Street School when the pupils of that institution will present an out door exhibition in front of the Sumpter School building. It promises to be one of the most unique and enjoyable affairs ever staged by Mexia school children.

About 107,200,000 tons of stone were quarried in the United States last year, the greatest amount ever known, exceeding the former record year, 1916, by nearly 17 per cent.

AMERICANS NOT TO ASK FOR WAR AGAINST FRANCE BECAUSE SPORTS HOOTED WHEN U.S. TEAM TRIUMPHED

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, May 19.—No action will be taken by the American Olympic Committee as a result of the anti-American demonstration in Paris during the rugby championship match until a report has been received from American representatives in Paris, it was said here today.

Even after the reports have been made it is not probable that any serious break will come between the French and American officials as there is a disposition here to regard the incident as being a demonstration of feeling from only a small part of a very large number of French people.

If the French Olympic Committee officially apologizes for the hissing of the American flag and the jeering of the Star Spangled Banner, the American committee may forget the whole incident and accept it as something that might have been pardonable under the circumstances.

Having accomplished their chief purpose in winning the championship and after completely vindicating themselves against the charges that they were "rough necks," and bad players, the American players probably will be satisfied to accept the demonstration only as poor sportsmanship and not as an overt act of war.

Germans Load Communists On Trains for Free Ride in Keeping Down Disturbance

BERLIN, May 19.—Something new in the way of combatting anti-monarchist demonstrations by Communists was tried out with success by the safety police Sunday. Several hundred special trains were run between this city and Fuerstenwalde, and as fast as groups of Reds showed up at the latter town and attempted to break up "Duetscher Tag" celebrations yesterday they were loaded aboard the trains and transported back to Berlin.

Uhlans and Fascisti succeeded in celebrating their "Deutscher Tag" in the great hall at Fuerstenwalde while the police repulsed successive waves of attacking Communists. Three policemen were knifed during the day and night, while perhaps a score of Communists were wounded.

French Flier Reaches China In Flight Around World

PARIS, May 19.—Captain Pelletier d'Oisy, French flyer, has arrived at Canton, China, on his flight to Japan from Indo-China which he reached last week.

We want the news, all the news of all the people, while it is news, and requests the readers to send in or telephone 146 or 361 news items and personals of their friends and acquaintances.

Entered as second-class matter, February 20, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia, I WILL"

A GROWING NUISANCE

The extensive distribution of circulars, booklets, pills, pamphlets and bulletins, along with almost every form of printed advertising device, on the streets and in automobiles in the business district of Mexia is becoming a nuisance of first rank. One can hardly go to his automobile without finding the seats and floor cluttered up with some sort of paper. On Saturdays the autoists upon returning to his car, after it has stood for a few hours in the business district, will find from one to a dozen papers of various kinds placed there by enterprising business men. The driver usually takes his hand and scrapes these out on the streets and in that way tens of thousands of circulars and the like are dumped onto Mexia streets every week of the world. They fan about in the business district by every wind that blows, increasing the unsightliness of the district and adding to the fire hazard of the place. Fire Chief Pittman is warning business men today against permitting trash and waste product to accumulate about their places. Efforts are being made to reduce the key rate, which promise satisfactory returns. Many business concerns know that they do not allow better business ideas prevail in this harem scarem distribution of their literature, but do so in self denfense. One firm puts out a circular or a tag of some sort and his competitor feels he has to do the same thing. Well distributed advertising pays well, it is true, but when a merchant places a thousand circulars in automobiles, it is possibly true that less than ten per cent of them are ever read. This means waste, loss in time and loss in money.

In the larger cities of the State, city authorities long ago saw the menace in the practice and by ordinance forbade the distribution of any literature pell mell on the streets. Newspapers cannot be scattered on the streets, no firm is allowed to sweep its trash out in the streets and there is no difference in the present practice of circular distribution here than that.

Mexia should have the same sort of ordinance, both for the protection of the business men and the public. All literature given away should be either handed to the person direct, mailed to him, or laid on counters inside doors and in the residential districts placed inside the screen.

LIMESTONE COUNTY BAR ASSOCIATION

Limestone County probably has more lawyers than any county in Texas not to be organized into a county bar association. Associations of this character have long been found helpful, both to followers of the profession and to the public at large. With the oil boom period past, a breathing spell is now afforded and the practicing attorneys of this section should organize as quickly as possible. An unethical lawyer is one that hampers the entire profession. With a bar association, judiciously handled the public could be protected against the unethical attorney. Only those who live up to the high and honorable ideals of the Texas Bar are usually admitted into these associations, forming county units. There are movements, too, for the good of the county which an organized bar may perform and suggestions given endorsement which would prove helpful to the public. Limestone County lawyers are urged to go into the subject and get together in a county bar and help more effectively in Limestone County betterment.

LA FOLLETTE LOOMS AS CONTENDER

There is now a pretty definite prospect that Senator LaFollette will head an independent ticket in the forthcoming campaign, even if he is unable to tour the country and make speeches. This word comes from persons intimate with Mr. La Follette, though it is part of his plan to make no announcement until after the Republican national convention.

There is a general demand among Republican farmers in the Northwest for LaFollett'e candidacy. They are ready to desert their own party. They complain that President Coolidge has the viewpoint of New England and has neither acquaintance nor sympathy with the problems and difficulties of western agriculture.

James R. Howard, former president of the American Farm Bureau Federation, though not friendly to LaFollette, is convinced, he says, that the Wisconsin Senator will be found as a candidate against Mr. Coolidge next November. In that event, Mr. Howard says, the President will lose Michigan, Wisconsin, Minnesota, the Dakotas, Idaho, Montana, Nebraska, Iowa and Washington.

Defeat or postponement of agricultural legislation upon which the heart of the West is set will be a further advantage to LaFollette and a corresponding detriment to Mr. Coolidge. And the Republican leaders friendly to the president are unwilling to enact such legislation before their national convention. They fear that it will offend the big special interests which have been objecting heretofore to the Government's extending any further financial help to farmers.

MR CHAPLIN'S FIRST PHOTO DRAMA

"A Woman of Paris," the first Charles Chaplin serious production for United Artists Corporation, will be the attracton at the National theatre, starting today for three days' showing.

This important announcement is made by Manager Pat Box, who at great cost procured for presentation this remarkable photoplay; the first dramatic contribution produced by the great genius of the screen—Charles Chaplin.

"A Woman of Paris," written and directed by Chaplin, marks a new departure in almost every element that goes to make up a motion picture. The treatment of the story is entirely different from anything heretofore seen in the photoplay theatre. While the theme deals with life as it really is, the psychological study presents life's problems from a viewpoint that is more one of understanding than of preachment. The story unfolds an exquisite tapestry, woven around a woman's soul naked in its sincerity though clother in its individuality.

Almost an entire year was consumed in the making of "A Woman of Paris" and while there are no huge sets, no mob scenes, no elaborate mechanical effects, the time devoted was in the perfection of the action and the fidelity to detail in the treatment of the story.

Edna Purviance, who has been identified with Chaplin n almost all of his comedy productions, rises to great heights in her career as the star of "A Woman of Paris." Unthought of qualities of histrionic capabilities have been revealed under the careful direction of Mr. Chaplin. Adolphe Manjou, well known screen actor, plays the leading male role, while other important members of the cast include Carl Miller, Lydia Knott, Harry Northrup, Malvina Polo, and others well known in the picture world.

CENTRAL TEXAS PRESS By N. P. Houx.

MEMBER TEXAS PRESS ASSOCIATION

Teague has a new paper just started by the Russell Printing Company, the first issue appearing Friday, May 16, and if it keeps up to the standard set at the start it is going to be a humdinger. The issue before us is filled with good reading matter and a liberal amount of fat looking ads, and would be a credit to any town. The editor, F. B. Russell, is an experienced newspaper man, formerly of the Trinity County News, and is competent to run a good, live weekly home paper. We gladly extend the hand of fellowship to him as a citizen of this section and hope that his new paper will live long and continue to prosper.

When McAdoo shakes hands with the populace he uses both the right and left. And it may have been his ability as a left-hand shaker that brought him the forty Texas votes.—Kosse Cyclone.

Like a fellow we once knew in Austin who played keno with both hands, and he kept both busy. Mr. McAdoo seems to be a good mixer, and that is what wins in politics.

Mr. Coolidge has discontinued shaking hands with visitors but will permit them to file through his office and see him at work, probably feeling that the sight of a Washington official at work ought to be sufficiently novel to satisfy anybody.—Teague Chronicle.

Those Washington fellows have been working all right—working the people, and the oil magnates.

Farmers are busy with their crops; carpenters, painters, brick masons and all others, with one exception, are busy in town. The Sons of Rest stand idly by and look upon the industrial stride with calm indifference.—Wills Point Chronicle.

And even the Sons of Rest keep busy—doing nothing—which is about the hardest work a working man can engage in.

These days are getting longer and warmer all the time, and the banks of the river and creeks are lined with people angling for the sly fish. Most of them come home just like they went away, but still have hopes of catching something the very next time they go fishing. That is all that makes a man believe that life is worth living. He has hopes that next year will find him in better condition financially, physically and in every other way. That is why he continues to go fishing and hopes to land some sure enough worthwhile fish.—Kilgore Chronicle.

After all this good old world seems to be full of optimists—fellows who are looking forward to something better, whether it ever comes or not. Come to Texas.

From the looks of his last week's paper, it seems that Brother Houx of the Mexia Herald has gone into the egg business. The copy reaching us was covered entirely with the contents of an egg, probably having come in contact with somebody's setting of eggs being shipped via parcel post.—Franklin Texan.

Or maybe some fellow had used your copy for a napkin to wipe off his chin after a good spring breakfast.

Our position simply is that the bobbings left at the bobber shops should be made into wigs for the baldheads.—Snap Shots.

Then we could all be amply supplied with hair. We are patiently waiting for ours.

Albert Luker, editor of the Grapeland Messenger, has got himself elected mayor of his home town and in the issue of the paper carrying the news he has a story about one of the poultry raisers feeding his hens on corn mash and juniper berries and producing real eggnog. Luker claims every egg is a jag and we suggest that he ship a few cases to Amarillo in June to further his campaign for president of the Texas Press Association.—Sam Miller in Mineral Wells Index.

And just to think, we have made no preparations to attend that meeting. These "entertainment" schemes should be published earlier in the game and allow "all" to take advantage of the opportunity.

You've gotten a chain letter I am sure, for mails are flooded with them We discarded ours in the wastebasket and advise others to do the same, however, advice is cheap and you can do as you please.—Bryan Eagle.

Yes, we got one that said if we did not pass it along within twenty-four hours some bad luck would forthwith overtake us. We didn't "pass" it, and sure enough the bad luck came right along. Our oil well has not yet come in.

The News' advice to young men around Teague is to stick to their jobs. By working hard eight hours a day for a few years they may get to be boss—and then they can work twelve hours a day.—Teague News.

Especially if they enter the newspaper game. Russell seems to know how it is.

The Lone Star Circus goes from here to Marshall where a week of celebration is planned next week.

PRESIDENTIAL POSSIBILITY

EDWARD I. EDWARDS

ADVISE AS TO OCULAR HEADACHE

In the course of an article on "Headaches," by Woods Hutchinson, M. D., in the New York American, he refers to eye troubles as follows:

"There is not more need to fear that a child will become 'dependent' on glasses prescribed to help his eyes than there is that he will become dependent upon good shoes to protect his feet. Both items are necessary for his complete comfort, or they would not exist.

"Nothing will bring no more persistent and disabling headaches than some defects of vision, and no type of headache can be more promptly and permanently cured than this one when proper measures are taken—and this means the fitting of corrective glasses.

"Another form of headache, which is more or less optical in origin, is that due to 'train sickness.' Quite apart from the cinders and dust and heat and glare of unshaded light, there is the constant flickering and shifting of the scenery close to the track. This is extremely fatiguing to the eye, which vainly tries to record all the objects whirling by so close at hand, and becomes thoroughly exhausted in the process, while if an attempt is made to read very long at a time the constant, though infinitesimal, vibration of the printed page is almost as bad.

"As usual, the best path is the middle one: Look out of the window a good deal, but keep the gaze largely upon distant objects, which do not seem to change their position so fast as those near at hand. Read a little by way of variety, and occasionally close your eyes for a complete rest."

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, billiousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Bennetts Drug Store.

CENTENNIAL MEETING IS PLANNED

(Continued from Page One)

expositions that ever have been held," it was declared yesterday by Cato Sells, Chairman of the Texas Centennial Celebration, when he announced the meeting of the seventy-one now chosen, Directors in Austin on May 21 and reviewed briefly the progress of the Centennial idea.

There is no doubt in Chairman Sells' judgment that when the governing board of Directors of one hundred representative Texans has been completed, it will altogether be the strongest group of citizens ever assembled in Texas for the carrying out of a definite undertaking. "Already it is manifest," Chairman Sells said, "that the Centennial will have the benefit of the best minds and stoutest hearts in Texas. And it is clearly apparent that the country at large expects Texas to put this Centennial Celebration over in a way that will be typically characteristic of Texans and flavored with the bigness of Texas. Not only is the outside world grasping the possibilities of the Celebration but more and more Texans themselves are awakening to the tremendous possibilities of the Centennial idea. The fervor of the citizens of Texas is being universally aroused and I am convinced that presently we will be exalted with the pride of having accomplished the most extraordinary celebration of a great Anniversary that this country, if not the world has ever seen. It is not too big a thing for Texas to do if we should stage within our borders a celebration that has never been matched in brilliancy of conception nor in breadths of attainment. Exact time and place are matters of secondary moment right now. The immediate task is to lay the foundation for something worthy of this great Commonwealth and its one hundred years of unparalleled achievements."

Machinery for the creation of the governing board of the one hundred outstanding citizens was set up at the State Convention of Texans held at Austin on February 12, when the Texas Centennial Celebration was definitely determined upon. The Senatorial Districts having selected all of their sixty-two Directors, and Governor Neff, Lieut. Gov. T. W. Davidson and Speaker of the House, R. E. Seagler, having named the members of the board assigned to them for appointment, there remains only twenty-nine Directors to be chosen from the State at large by the seventy-one constituting the now selected nucleus of the Centennial Board.

The momentum acquired by the Texas Centennial since it was proposed has been unusually interesting. Not an inactive day has passed since last November when the 10th District Associated Advertising Clubs of the world met in Convention at Corsicana, the home of Secretary Lowry Martin, and promulgated the Centennial idea. Indefatigable activities have continuously obtained sowing seeds of the Texas Centennial. By February 12 there was a ripe harvest, when nearly a thousand representative Texans accepted invitation to gather at Austin and make further plans. A definite preliminary program was initiated in that session. Since that time there have been formal meetings and informal conferences in practically every county in Texas and in every State Senatorial District.

"The idea has taken with exactly the interest and enthusiasm we would wish," Chairman Sells said, and the seeds of the Centennial have been sown everywhere. One of the big by-products of the Centennial should be the building of the spirit of comradeship with the countries of Pan-America and that conception already is in the flower. As a member of Uncle Sam's family, we are close neighbors to all the countries that constitute Latin America. In commerce our interests are compellingly sympathetic and as Texans and Americans we have friendship with those neighbors of ours to the South. Through the medium of a great exposition to be constructed in Texas we can lay the sills of a better understanding with all Pan-America to the mutual advantage of all concerned."

The following Texans have been selected as members of the Centennial governing board and will attend the meeting at Austin, May 21st:

Senatorial District Members:

F. L. McGee, Daingerfield; A. C. Stuart, Texarkana; Frank Soape, Henderson; Miss Margie Neal, Carthage; Eugene H. Blount, Nacogdoches; Kester Lenman, Lufkin; E. E. Plumley, Beaumont; W. E. Lea, Orange; W. L. Dean, Huntsville; Judge T. P. Buffington, Anderson; A. A. Allison, Corsicana; E. B. LaRue, Athens; Sam R. Greer, Pittsburgh; J. V. Greer, Canton; Chas. E. Terry, Clarkesville; W. W. Evans, Sulphur Springs; C. B. Drochester, Sherman; Will H. Evans, Bonham; Dr. C. G. Comegys, McKinney; Jos. F. Nichols, Greenville; Cullen F. Thomas, Dalls; Milburn Hobson, Dallas; A. L. Smith, Hillsboro; J. R. Mayhew, Waxahachie; W. V. Crawford, Waco; J. K. Hughes, Mexia; Judge Joe Reid, Franklin; Dr. J. M. Johnson, Giddings; Gus Russek, Schulenburg; Ben H. Faber, Columbus; Oscar F. Holcombe, Houston; Jacob F. Wolters, Houston; T. J. Holbrook, Galveston; W. C. Stephens, Bay City; A. M. McFadden, Victoria; Levi Baker, Goliad; J. T. Harwood, Gonzales; Burney Reagan, San Marcos; Mrs. Clara Driscoll Sevier, Austin; E. G. Gillette, George town; W. K. Gordon, Thurber; Geo. W. Tyler, Beiton; B. F. Cherry, Weatherford; S. J. Stuart Strawn; Judge J. S. Dickey, Henrietta; Bruce Frazier, Electra; T. N. Carswell, Abilene; Judge N. N. Rosenquest, Eastland; C. C. Walsh, San Angelo; Mrs. Cecil Gray; Coleman; Harold Kayton, San Antonio; Tom H. Etheridge, Jr., San Antonio; Asher R. Smith, Laredo; W. R. Jones, Brownsville; Cato Sells, Fort Worth; Van Zandt Jarvis, Fort Worth; C. M. Newman, El Paso; R. F. Burgess, El Paso; F. B. Ralls, Ralls; R. A. Underwood, Plainview; J. W. Crudgington, Amarillo; and A. S. Moss, Memphis. Appointments by Governor Pat M. Neff: Will H. Mayes, Austin; Frank Kell, Wichita Falls; W. S. Birdwell, Buda; B. W. Patterson, Cisco; W. T. Herrick, Governor T. W. Davidson: Tom Finty, Jr., Dalls; Benton McMillin, Zavalla. Appointments by Hon. R. E. Seagler, Speaker of the House: Jos. S. Myers, Austin; Sam C. Lackey, Cuero.

EX-SHERIFF ANDERSON OF HARRIS COUNTY GIVES TANLAC CREDIT

Man Who Held Public Office Over 27 Years Says Medicine Restored His Health and Strength 5 Year Ago and Has Helped Keep Him Well.

"I said a lot in praise of Tanlac some six years ago, but not half enough, in view of what it did for me," is the high tribute paid the famous medicine, a few days ago, by Hon. Archie R. Anderson, ex-sheriff of Harris County, Texas, who resides at 1505 Austin St., Houston.

Mr. Anderson is unquestionably one of the best known and most popular men that ever held public office in the "Lone Star" state. After serving as deputy sheriff of Harris county for 12 years, Mr. Anderson was elected chief of police of the city of Houston. He had occupied this office but a short time when the sheriff of Harris county died and Mr. Anderson was then appointed by the Commissioner's Court to serve out the unexpired term of sheriff. He was honored with re-election as sheriff seven different times and served the people in this important office 15 consecutive years.

In 1912 Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this city. Speaking further of his experience with Tanlac, Mr. Anderson said:

"Before taking Tanlac I was run-down and had no appetite. I had the worst form of indigestion and could not eat fried foods or pastries at all. I suffered all the time from gas on the stomach, which frequently caused severe pains. I also suffered with the worst sort of neuralgic pains and nothing seemed to help me only in a temporary way, until I took Tanlac.

"Then I read the statement of a Georgia sheriff, who had been relieved of trouble like mine, I just felt like I couldn't go wrong by taking Tanlac, and it has done even more for me than I expected. I felt better after the first bottle and the complete treatment of six bottles made a new and different man of me. I never felt better in my life than I did after taking Tanlac. And although five years have passed since Tanlac straightened me up, my health has continued good and my stomach as sound as a dollar to this good day. I am glad to endorse Tanlac because it does the work and does it well."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills for constipation. Made and recommended by the manufacturers of TANLAC.—(Adv.)

Ignorance of Law Excuses No One

BEAUMONT, May 19.—E. B. Kelso, Jefferson county offical whose duty it is to issue car license plates, is looking for a slogan—some method of reminding the motorists of that county to bolt the plates on their flivvers securely.

A total of 900 car owners or one out of every 15 have applied for duplicate numbers since January 1, according to Kelso who adds that but a few of this number have asked for new plates to replace others which were unservicable or stolen.

Kelso adds that with few exceptions those applying for new plates are surprised to learn that they must pay for new duplicate numbers, the general belief being that if a number once paid for is lost the duplicate will be issued without cost.

Regarded as impregnable against attacks by land or air, the Bank of France has been supplied with a vault having a bomb proof roof and surrounded by water.

The Idian telephone department has extended a trunk telephone line to Rangoon and is planning to extend it to Mandalay.

"Labor Saving" Device for Lazy Lounge Lizzards

DALLAS, Texas, May 19.—A slot machine which sprays fastidous gentle men with imported perfume at ten cents a squirt is doing a flourishing business in the men's room of a downtown hotel here.

Jelly-beans and others, grooming for an engagement with their fair ones, have been seen to put the finishing touches on their immaculate selves by walking up to the automatic sprayer, dropping in a dime and turning the knob.

The machine hangs on the wall near the bootblack stand just off the main lobby. For the drop of a slug it exudes sweet odors of Black Narcissus.

But like the automatic music box the man who drops the slug doesn't get a monoply on the returns. Swarms of lobby leeches sniff the exotic armoa without investing a dime.

About 107,200,000 tons of stone were quarried in the United States last year, the greatest amount ever known, exceeding the former record year, 1916, by nearly 17 per cent.

THANK YOU!

I wish to take this means of thanking everyone who assisted me in any way in winning first place, (which was a diamond ring) given by the Mexia Shrine club in its popularity contest. Thanking all, I am

JESSYMAE SHERRER.

The Spanish government match monopoly has been extended to include automatic lighters.

An engine for ships has been invented in which the lower half of each cylinder is operated by oil on the Diesel engine principle and the upper half by steam.

The population of northern Manchuria has increased from 1,000,000 to 12,000,000 since a Chinese railroad began to operate 1100 miles of line in that region.

Y.M.B.L. to Put On Trade Trip to Nearby Towns

WACO, May 19.—An automobile trade trip, the special purposes of which are to cultivate closer relations with towns visited, and bring the Cotton Palace still nearer the people of this section, is set for Thursday, May 22, under auspices of the Y. M. B. L.

The committee in charge of the day is composed of Tom Wolfe, H. L. Davis and W. T. Durham, and they state that the 22 automobile firms of the city have agreed to send representatives on the trip with new model machines, and that letters have been received already from the mayors of several of the towns to be visited, expressing great pleasure over the coming of the Waco people. This trip would have been in evidence sooner but for the Brownwood visit.

Chairman Tom Wolfe said Saturday that the start will be made from the Y. M. B. L. at 7:15 o'clock Thursday morning, and urged that business men attend. A visit will be paid to Prairie Hill, Coolidge, Mexia, Groesbeck, Kosse, Thornton, Reagan, Marlin, Perry and Riesel.

"This is only a 9-hour trip and can be made easily in the day," said Chairman Tom Wolfe. He said that a band will be taken if possible, and dinner will be enjoyed at Groesbeck.

Cotton Palace banners will be provided for marchers, and a great day is expected. There will be room for a number of persons who haven't cars, it was stated.

"Let every business man who can do so attend, and cultivate closer relations with these good people, also boost the Cotton Palace," said Chairman Tom Wolfe of the Y. M. B. L. committee.

Mexia Boys Are Expected to Put Up In Business

Within a few days all city schools will be out for the session. Then Mexia may expect to witness a revival of the usual summer pursuits of boyhood. Such pursuits have gone a long way since the days of Tom Sawyer and Huckleberry Finn. Even these two adventurers never felt the thrill of being a purveyor of soda water to all the other boys in the neighborhood. And in this Mexia's youth have something on fiction's most famous boy characters. "Setting up" a stand has become one of the leading outdoor sports. In a few days, the citizens will expect to find them all over town. Working capital is not a great difficulty. Almost any boy can talk his dad out of 60 cents. And that's enough to start the venture. This will acquire ten cents worth of ice and leave a half a dollar for soda water. The rest is just a question of foraging. The family washtub is a convenient place for icing the beverage. A couple of soap boxes bursted up and nailed together, a grass sack for a roof, and the thing is done.

PLAY AT SHILOH

A play, "The Old Fashioned Mother," a comedy drama in 3 acts, will be staged at Shiloh in school auditorium Saturday evening, May 24th. Play given under auspices of Ladies Missionary Society of Ben Hur. Full rights performance. Admission 15c and 25c. Proceeds to be divided. (19 21-23)

CIRCUS PERSONNEL WINS MANY FRIENDS IN MEXIA

The Lone Star Circus management and personnel won many friends, especially among the Shriners, last week, while joining in staging the Mexia Shrine Club Circus and merchant's exhibit. The management was under the supervision of L. M. Forcier and O. W. Smith. The personnel of the show consisted of Mr. and Mrs. Harrison, Mr. and Mrs. McCune, Misses Beulah, and Wells and Madame Sylvannia.

The South African city of Durban, which owns the local telephone system, will convert it into an automatic system at a rate of 2000 telephones a year.

OKLAHOMANS SEE PROSPERITY ON FARM LAND OF STATE

OKLAHOMA CITY, May 19.—Oklahoma farmers are faced with the brightest crop prospects of a decade on the basis of State-wide crop reports in the hands of the State Board of Agriculture, according to John A. Whitehurst, head of the department, today.

General rains during the last three months has boosted the winter grain crops and conditioned the soil for rapid growth of spring-planted crops.

Harvesting will start between June 1 and 10, Whitesurst said, upon the largest wheat crop the State has known in the last five years, estimated at 44,847,000 bushels, an increase of 23 per cent over last year. Greater yield per acre is responsible for the increase, it was indicated, as the acreage in approximately the same as in 1923. The State crop will average 13.5 bushels an acre, according to departmental predictions.

Questionnaires were pouring into the State Department of Labor today indicating the number of harvest hands that would be required for the wheat harvest in the various counties. No statement as to the number will be available, however, until answers have been received from all sections, according to departmental officials. Wages will be between $3 and $3.50 with board, for harvest hands(it was estimated.

Cotton was not sufficiently advanced to warrant a prediction. Whithurst said, cool rainy weather has necessitated replanting in some parts of Southern Oklahoma where the crop is above ground. The State's cotton acreage is slightly in excess of that of last year, reports indicate, but may fluctuate with the progress of the growing crop.

Poor stands may be broken and replanted in forage feeds, it was indicated.

Corn is 89 per cent normal with an estimated yield of 50,000,000 bushels in prospect and the oats and rye have high standing. Chinch bugs have been reported from scattering communities in the southeastern part of the State with some damage to oats and corn, but most has escaped harm, Whithurst said.

Pastures are generally good due to heavy seasonal rains and live stock ranks proportionately with the amount of forage available.

Poultry Business Being Perfected

GOLDTHWAITE, Texas, May 19.—Goldthwaite's Chamber of Commerce, vitally interested in the progress of home industries, has closed a contract for the erection of a $10,000 cold storage plant to be operated under the auspices of the organization.

The erection of the plant follows a tremendous increase in the production of poultry in this section of the state, more than 30 carloads of turkeys being cleared out of Goldthwaite during the holidays last year.

The major share of the stock for the plant was sold to the farmers in the surrounding communities who, in addition to using it as a storage center for their turkeys, will also use it as a storehouse for perishable products during the growing season.

WATCHING THE SCOREBOARD

Yesterday's hero: Max Flack, St. Louis Cardinal outfielder.

He doubled in the ninth inning and drove in the two runs that beat the Braves, 5 to 4.

Markerry, Streetman, Texas boy and former Mexia Gusher pitcher, let the Browns down with two hits in eight innings but he blew up for four runs in the ninth and the Senators lost, 6 to 3.

Bob Shawkey scattered seven hits over nine innings and the Yanks beat the Indians, 8 to 0.

Brooklyn knocked Donohue out of the box in the eight and scored three the box in the eighth and scored three into a tie for first place.

Homers by Holke and Sand, two triples, a double and a single scored six runs in the second inning and gave the Phils an 8 to 5 victory over the Cubs.

The Red Sox knocked Cole out of the box in the seventh inning and scored three runs that beat the Tigers, 5 to 4.

American Patriots Since Revolution Have Received Bonus of Some Sort For Part Played in Preserving Nation

Argument for the "Bonus"

By GEORGE WASHINGTON
(From an appeal in behalf of his soldiers)

It is more than a common debt; it is a debt of honor; it can never be considered as a pension or gratuity nor cancelled until it is fairly discharged. . . .

No man will enjoy greater satisfaction than myself in an exemption from taxes for a limited time. . . or any other adequate immunity or compensation granted to the brave defenders of their country's cause

For his own services in the Revolutionary War General Washington received:

(1) A three thousand acre grant of land from the State of Virginia.

(2) Stock in the Potomac Canal Company valued at $10,000 from the State of Virginia.

(3) For "personal expenses" during the war, $64,415 in cash from the Federal Government, by Act of Congress.

Application for "Bonus"
By ABRAHAM LINCOLN

State of Illinois,
Sangamon County, ss:

On this 21st day of August, A. D. 1855, personally appeared before me, a justice of the peace, Abraham Lincoln, aged 46 years, a resident of Sangamon County, in the State of Illinois, who, being duly sworn according to law, declares that he is the identical Abraham Lincoln who was captain of a company in the regiment of Illinois Mounted Volunteers, commanded by Col. Samuel M. Thompson, in the war with the British ban dof Sacs and other tribes of Indians on our northwestern frontier in A. D. 1832, known as the Black Hawk War. That he volundays; that he has heretofore made application for bounty land under the act of September 28, 1850, and received a land warrant, No. 52076, for forty (40) acres, which he has since located and cannot now return. He makes this declaration for the purpose of obtaining the additional bounty land to which he may be entitled under the act approved the 3d day of March, 1855.

(Signed) Abraham Lincoln.

Application for "Bonus"
By ULYSSES S. GRANT

State of Michigan,
County of Wayne, ss:

On the 6th day of November(A. D. 1850, personally appeared before me, a justice of the peace, First Lieutenant Ulysses S. Grant, aged 28 years, an officer of the Fourth Regiment, United States Infantry, who, being duly sworn according to law, declares that he is the identical Ulysses S. Grant who was a second lieutenant in the Fourth Regiment of United States Infantry, in the war with Mexico declared to exist on the 13th day of May, A. D. 1846, and continued in actual service during the entire period of the war.

He makes this declaration for the purpose of obtaining the bounty lands to which he may be entitled under the "act granting bounty lands to certain officers and soldiers who have engaged in the military service of the United States," passed September 28, 1850.

(Signed) U. S. Grant.

Application for "Bonus"
By ROBERT E. LEE

State of New York,
County of Orange:

On this 20th day of February, A. D. 1854, personally appeared before me, a special judge within and for the county and State aforesaid, Robert E. Lee, aged 45 years, an officer in the United States Army, who, being duly sworn according to law, declares that he is the identical Robert E. Lee who was a captain in the Corps of Engineers of the Army of the United States in the late war with Mexico.

He makes this declaration for the purpose of obtaining the bounty land to which he may be entitled under the "act granting bounty land to certain officers and soldiers who have been negaged in the military service of the United States," passed September 28, 1850.

(Signed) R. E. Lee.

POLITICAL CALENDAR

July 16.—Not more than ten or fewer than three days before the first primary election, a voter expecting to be absent on the day of election may cast an absent ballot with the County Clerk of the county of his residence.

July 26.—"Primary Election Day," also "Precinct Convention Day" for both Democrat and Republican parties Pribary election opens at 8 a. m. and closes at 7 p. m.

July 26.—Not more than thirty or fewer than twenty-five days in advance of second primary election first statement of expenses in primary election must be filed.

July 30.—Presiding judges of election shall make returns on or before this day to county chairmen.

Aug. 2.—County executive committees canvas returns. Democratic and Republican county conventions held.

Aug. 3.—Not more than twenty or fewer than ten days before the second primary election, a voter may arrange through a notary public to cast an absent ballot. (See July 6 item.)

Aug. 5.—Final statements of campaign expenses in first primary election must be filed on or before this day.

Aug. 11.—Not more than twelve or fewer than eight days in advance of second primary election second statement of expenses in second primary election campaign must be filed.

Aug. 11.—State executive committee meets to canvas returns of primary elections. Majority of voters necessary for nomination. In cases where no majority has been received a second primary election shall be ordered to decide between the two candidates who received the highest number of votes in the first primary election.

Aug. 11.—Commissioners' Court may reform election precincts; serve notice of changes on the presiding judge of each precinct within ten days.

Aug. 12.—State convention of Republican party.

Aug. 13.—Not more than ten or fewer than three days before the second primary election, a voter expecting to be absent on the day of the election may cast an absent ballot with the County Clerk of the county of his residence.

Aug. 21.—County Clerk shall certify to each presiding judge the order of the Commissioners' Court, giving number, name and bounds of the election precinct and notice of their appointment as judges. This service is to be made by the Sheriff or a Constable within ten days after the entry of such order.

Aug. 18.—On or before this day persons who have moved from one election precinct to another must se- County Tax Collector shall furnish a County election board supplement list These provisions apply only to cities of 10,000 or more inhabitants. Tax Collector shall also furnish full list of qualified voters.

Aug. 23.—Second primary election day (Runoff.)

Aug. 23.—District conventions to nominate candidates meet on this day. (Both Democrats and Republican parties.)

Aug. 27.—On or before this day presiding judges shall make returns to county chairmen.

Sept. 1.—On or before this day Commissioners' Court shall file with County Tax Collector certified copy of order establishing election precincts.

Sept. 1.—State Executive committee meets to canvass returns of second primary.

Sept 2.—State Democratic nominating convention opens.

Sept. 3.—On or before this day final report of second primary election campaign expenses must be filed. cure record of such removal by County Tax Collector. Also, on this day

Nov. 4.—General election day.

THE TEXTILE INDUSTRIES

(The Guaranty Survey)

The consumption of cotton by domestic mills in March showed a decline, at variance with the usual upward seasonal tendency. Some improvement has been recently reported by Southern mills, however, and raw cotton prices have moved within narrower limits.

In the silk industry also some unfavorable conditions have been accentuated in recent weeks. The decline in raw silk prices has continued since last October. The spring business of manufacturers has been generally disappointing. Conditions in the artificial silk industry are more favorable. American production in 1923, about two-fifths of the world's total, was more than 35,000,000 pounds, 50 per cent. more than in 1922 and about three times that of 1920.

The difficulties confronting producers of cottonseed oil have not been overcome. Prices of this product are largely influenced by the foreign demand and by the course of lard prices. Exports have been low in recent months and prices of lard have declined. Until these conditions are modified, prices of cottonseed oil may remain depressed.

An irregular decrease in freight car loadings has been in progress since the end of February, and for the four weeks ended April 12 loadings were about 2½ per cent. below the corresponding figures last year. It is significant, however, that "merchandise l. c. l." loadings have been well sustained. Decreased loadings of coal have been the principal factor in the aggregate decline.

FOR SALE OR TRADE

One acre of land (8 lots) one block from McKinney street, in Mexia, Texas. Has two small houses on it. Will sell cheap for cash, or will make terms, or will trade it in on a small farm. Apply to A. E. Epperson, at the Oasis Cafe, Mexia, Texas. wtf.

The Idian telephone department has extended a trunk telephone line to Rangoon and is planning to extend it to Mandalay.

Here's How to Call Out Fire Departm'nt In Case of a Blaze

Fire Chief Pittman called attention today to an increasing number of false alarms being turned in from various parts of the city. He is anxious to have his department respond promptly to every call made but while on a run following a false alarm some real fire may occur. Besides every run made costs the tax payers considerable money. This is true everywhere.

He does not wish anyone to be confronted by real risks and hesitate but states that if the person turning in the alarm will first be sure that there is a fire, it will be greatly appreciated by the people who keep up the fire department and equipment.

In case of fire, call "49" and state that there is a fire at, naming street, and at house number whatever it is. This will be mutually helpful and enable the department to respond promptly.

The left field wasn't safe territory for a hit to travel into Friday. Butler was back at his old position.

WAR DECLARED AGAINST GERM CARRYNG PESTS

A determined war on flies and all other germ-carrying insects and bugs is being waged throughout the Southwest. Startling disclosures of the grave menace to health of communities by practically every crawling, flying insect has finally aroused the people to the acute necessity of battling against these pests.

Of all the long list of disease-breeding insects, flies appear to top the list. It is estimated that the common housefly is responsible for more sickness and epidemics than all other menacing species of pests. The bugs and vapids that injure and destroy than only extermination of healththeir poisonous sting are high in the percentage column of ravages wrought to health; while roaches, water bugs, fleas and ants present in lesser degrees as positive a danger.

This insect-destroying campaign, however, is vastly more far-reaching vegetation, and moths, that wreck furs and woolen cloths are marked for elimination as well.

It has been proven that the pouring of oil on waters, covering of garbage cans and screening of windows and doors, while helpful in the fight against insects, does not overcome the menace. They will still breed and swarm around humanity and vegetation and accomplish their destructive and dangerous work.

As a result, various preparations have been compounded and several are now on the market designed to kill the pests. Some of these are effective in varying degrees, some have been proven worthless, while a few are very efficient.

When it is realized that all flies, mosquitoes, roaches, water bugs, fleas, moths, bed-bugs, and lice breathe thru their skin it can readily be seen that a preparation that would instantly kill the insect must have a smothering effect. In other words, it must possess ingredients which fill the insect pores with poison that is absolutely harmless to humans and therefore safe to use.

Such an insect-smothering preparation has been compounded that has the added advantage of killing the eggs before they hatch, by the same process of smothering through the pores of the egg covering, the embryo insect. This product, known as Fly-Flu, is now rapidly being distributed thruout this section.

A universal use of such a preparation should most certainly reduce this insect menace to the minimum. (adv.)

D. D. Lewis was here Monday from Waco.

Mothers!

Give the children WRIGLEY'S after every meal

A prominent physician says:

"It is surprising how free from decay the teeth can be kept by using gum after each meal."

You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but *the reward is actually the means of performing this important service!*

WRIGLEY'S aids digestion too, and acts as an antiseptic wash for the mouth and throat. Several flavors—all of WRIGLEY quality.

The Flavor Lasts

MARIA DEL PILAR MORENO.

Fifteen-year-old Maria del Pilar Moreno, recently acquitted in Mexico City on the charge of murdering Senator Tejeda Llorca, is the national heroine in the Southern Republic. Senator Llorca had killed her father, but was immune from arrest because of his official position. The girl thereupon waited in front of his home and killed him She received tremendous applause when freed and was showered with flowers.

Beautiful Complexion

A few days' treatment with Carter's Little Liver Pills will do more to clear up the skin than all the beauty treatments. An imperfect complexion is caused by a sluggish liver. Remove the Poison from your blood and keep your system in a healthy condition.

Standard Remedy taken by millions for over Fifty Years.

CITATION BY PUBLICATION
THE STATE OF TEXAS

To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Limestone if there be a newspaper published therein, but if not, then in any newspaper published in the Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said Judicial District for four weeks previous to the return day hereof, B. D. Flickinger whose residence is unknown, to be and appear before me, a Justice of the Peace in and for Limestone County, at a regular term of the Justice's Court for Precinct No. 4 of said County, to be begun and holden at my office in Mexia on the 10th day of June, 1924, at ten o'clock A. M., to answer the complaint of Rogers Mercantile Company in a certain suit therein pending, in which Rogers Mercantile Company is Plaintiff, and B. D. Flickinger is Defendant.

Filed on the 26th day of April, A. D. 1924, and numbered on the Docket of said Court No. 730, the nature of the Plaintiff's demand being in substance as follows: On July 14th, 1923, at the instance and request of Defendant the Plaintiff took defendant's note in the sum of $44.50, due thirty days after date, said note providing for ten per cent attorney's fees if placed in the hands of an attorney for collection. Plaintiff says further that he placed the note in the hands of Keys & Mason, attorneys, for collection, agreeing to pay them the ten per cent attorney's fees provided for in the note, the same being reasonable attorney's fees; that the note is now past due and unpaid, and that Defendant, though often requested, has hitherto failed and refused, and still refuses, to pay the same or any part thereof, to Plaintiff's damage in the principal sum of $44.50.

Wherefore, Plaintiff prays that the Defendant be cited to appear and answer this suit; that he have judgment in the principal sum of $44.50, interest, attorney's fees and costs of suit, and for such other and further relief, general and special, in law and in equity, to which he may be justly entitled.

Herein fail not, but have then and there before said Court, at said regular term, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand, this 26th day of April, A. D., 1921.

O. KENNEDY,
Justice of the Peace,
Precinct No. 4 Limestone
County, Texas.

U. S. AIRMEN HOP OFF TOWARD JAPAN PROPER

LONDON, May 19.—America's around the world flyers hopped off today from Paramarshiru Island for Yetoforu Island, several hundred miles southward towards Japan proper, according to Central News dispatches.

The airmen took the air at 7:30 a. m. at which time weather conditions were reported favorable. Climate conditions will be dangerous to the American world flight after Tuesday, according to Japanese weather experts.

Lieutenants Lowell Smith, Erik Nelson and Wade Leigh, piloting the three American planes which crossed the Pacific hoped to reach Minato on the northeast coast of Hendo about Wednesday.

WALL STREET BETS ON DEMOCRATS

NEW YORK, May 19.—Bets at one to three that the next president will be a Democrat were offered in Wall Street. Odds on Coolidge's re-election were lengthened again, being five to nine that he stays in the White House. One to four on McAdoo's nomination with little money in sight.

TYPHUS MENACES GERMANY

BERLIN, May 19.—Signs of an epidemic of the dread Asiatic typhus is spreading in different parts of Germany. A heat wave is aiding spread of an epidemic. Two are dead and scores seriously ill in Bavaria. One hundred and sixty six members of Reischswehr are in the hospital. Putrid meat is believed to be the cause of the epidemic.

THAW APPEAL IS DISMISSED

PHILADELPHIA, May 19.—The appeal of Evelyn Nesbit for a new trial for Harry Thaw recently declared sane, was formally withdrawn. William A. Gray, attorney for Evelyn, said he thought he could win the appeal, "but my client does not wish further to do with it." Thaw is visiting his mother in Pittsburgh.

COERCION CHARGED BY REPRESENTATIVE

WASHINGTON, May 19.—Secret agents of railroads, using code telegrams, have attempted to coerce and mislead members of congress in order to defeat the Barkley bill abolishing the Railroad Labor Board, Representative Nelson of Wisconsin, charged in the House when debate on the bill was resumed. The bill is regarded as the opening wedge in revising the transportation act of 1920.

FLIGHT RESUMED AT 7:30 A. M.

PARAMASHIRU ISLAND, May 19.—The American round the world flight was resumed at 7:30 a. m. today. Lieutenants Smith, Nelson and Wade hoped off from Kashiwabara Bay for Yetorofu Island, 500 miles to the southward. They are endeavoring to reach Japan proper before threatened bad weather sets in.

MAN GIVEN BOND FOR MURDER

FORT WORTH, May 19.—Frank Yeager, 23, was at liberty on $10,000 bond today following the killing near here Sunday of Will Slaughter, foreman of the Corn ranch. Slaughter was shot during a quarrel with Yeager while the two men, with several others were hunting. Slaughter's mother lives in Houston.

TWO DROWN IN TRINITY

CROCKETT, Texas, May 19.—Mr. and Mrs. Louis Shupak were drowned in the Trinity river Sunday when their boat capsized.

SAFE ROBBERS OBTAINED $1280

DALLAS.—Safe robbers obtained $1280 from a Piggly Wiggly store here over the week-end.

HARVEY TO EDIT POST

NEW YORK, May 19.—George Harvey, former Ambassador to England, will become editorial director of the Washington Post on June 1, Edward B. McLean, owner of the paper, announced today.

TENNIS STAR WITHDRAWS

PARIS, May 19.—Mlle. Suzanne Lenglen, world's tennis champion, has withdrawn her entry in the French national championships because of illness. She hopes to be in condition to play in the Olympic games.

John A. Monroe of Greenville was a Mexia visitor Sunday.

J. V. Hankla, of Austin, was in the city Monday.

Mrs. M. S. Walsh of Dallas was a Mexia visitor Monday.

J. A. Neath was here Monday from Cisco.

Ralph W. Beck of Midlothian, was in the city Sunday.

H. S. Drumwright, of Cisco, was in the city Sunday.

TONSIL TALKS

Picnic or Funerals—

Sun-shine or rain, good luck or bad fortune all mean the same to the man or woman who is suffering from some physical ill.

Come what may, they have no interest for anything. Their old pep and ambition is gone. They are languid, dull, listless. They endure needless and cruel pain.

Man alive! Why not snap out of it? Why continue to be a burden on your family, a hindrance to your community when renewed vigor is only a matter of knowing what should be done?

Your health, that most priceless of all possessions, should be given the same intelligent consideration you would give a business deal.

You will be giving your health a square deal only when you realize that nine times out of ten it is your infected tonsils that is responsible for your nervousness, constipation, bronchitis, asthma, dispepsia, rheumatism, and other troubles.

You will be making the first step on the road to recovery when you understand it is the poison from your infected tonsils that lowers your blood resistance and causes your lack of vitality.

What would it mean to you to be able to eat and enjoy the stacks of food which that ravenous young boy of yours consumes? To indulge again in the sports of your youth, to sleep well at night, to actually grow young again with your children.

Is it worth a trip to our office for a free examination of your throat?

CARPENTIER AND GIBBONS BEGIN REAL GRIND FOR BOUT

MICHIGAN CITY, Ind., May 19.—Tommy Gibbons and Georges Carpentier of France, who will meet here May 31, today entered the semi-final week of their training grind.

Gibbons, because he never gets out of condition, is rapidly rounding into fighting shape. The St. Paul boxer stepped on the scales yesterday and balanced the bar at 177 pounds.

Nearly $100,000 worth of tickets for the big scrap have been reserved, according to promoters. General sale of tickets opens today.

Six Die When High Test Gasoline Explodes

INSURANCE BONUS BILL HAS NOW BECOME LAW

Houston Alumni Ask Stark and Regent to Quit

$200,000 Loss Sustained at Plant Near St. Paul

ST. PAUL, Minn., May 19.—Six men were burned, two perhaps fatally, when a car load of high test gasoline exploded and set fire to the Craig Oil and Refining Company plant. Three hundred thousand gallons of gasoline and lubricants as well as all buildings and tanks were destroyed... The loss is estimated at $200,000.

PEDDY REACHES WASHINGTON FOR FINAL CONTEST

WASHINGTON, May 19.—George E. B. Peddy, contesting Mayfield's seat, arrived here to attend the hearings which will be resumed tomorrow. He expressed satisfaction over progress of the case. Peddy's attorneys are to question N. N. Furney, cashier of the Imperial Palace of the Klan at Atlanta, in an effort to establish that the Klan sent large sums of money to Texas to help elect Mayfield.

METHODISTS SET ASIDE RESOLVE AGAINST WAR

SPRINGFIELD, Mass., May 19.—The "anti war" resolution of the committee on sate of the church of the Methodist Episcopal General Conference was set aside and a special committee was authorized to deal with the question. The resolution was adopted by an overwhelming vote. It was to have been presented to the General Conference today.

Senate Overrides Veto Of President Coolidge By Vote of 59 to 26

WASHINGTON, May 19.—The bonus bill became a law today when the Senate overrode President Coolidge's veto by a vote of 59 to 26, which is two more than necessary.

Eradication of Tick In County Shows Progress

It may be well to call attention to the beginning of tick eradication work in this county, the law, and the progress made within the last year.

Some people who, doubtless because of their sociallistic trend of mind, oppose everything that really tends to help the country, have lost sight of the fact that when this law was first inacted, it provided that the State be put into three zones. Then dipping was not made compulsory in this county until the people VOTED on it and in this way made the law effective in this county. Real democrats are always willing to abide by what the majority does where an election is held. We have no right to complain now, and, as in the case of all laws, they should be respected or repealed.

Because of the splendid progress made in tick eradication work within the last year, we can well afford to lay aside any prejudiceness we may have against it. No person has the right to criticise the work until he or she has personally visited the vats and in this way learn its true conditions. The people are dipping closer than they ever dipped. (We are only dipping each two weeks in the infected area.) The county is now 95 er cent free of fever ticks, and we can actually finish this year, if given proper co-operation. Lay down your hammers and join in the fight to get the last fever tick in this county this year. By all means help us prevent the bringing of cattle from Freestone, Leon and Robertson counties, without a permit. Why clean up and then let them run it over us and thereby have to clean up again? We expect to prosecute any person who violates this law, from now on. Give us your moral support.

Yours to serve,
T. J. FORTENBURRY,
Inspector in Charge.

THE WEATHER

East Texas—Tonight and Tuesday unsettled.

West Texas—Tonight and Tuesday unsettled; probably showers in he Panhandle.

COOLIDGE HOLDS EARLY CAUCUS REGARDING HIS VETO

WASHINGTON, May 19.—President Coolidge has recovered from a severe cold and had a breakfast conference with seven senators whose votes on the soldier bonus bill scheduled in the Senate for today or tomorrow are classed as "doubtful." Five Senators said they would support the bonus and not support the veto. Two are still open to persuasion. Senator Smoot, who called on the president after the conference, said he believed the veto would be overridden.

A little group of "doubtful Republicans held the fate of the soldiers bonus bill in their hand as the Senate prepared to take the measure up for a vote on the Presiden's veto."

If they vote to over-ride the veto the bill will become a law; if they vote to sustain Mr. Coolidge, the bill is killed for this session.

As the measure came before the Senate for the test, the situation was as follows:

Five Senators certainly will not vote because of their absence. These are Senators Greene, LaFollette, Couzens, Lenroot and McCormick.

Assuming all other Senator vote as is expected, there will be 91 votes cast requiring 61 votes to override the veto or 31 to sustain it.

Senator Curtis, Republican whip, author of the bill, will move today at 2 p. m. to take it up. Anti-bonus leaders threaten to stage a parliamentary skirmish to avoid taking up the measure and for this reason it is not expected that the vote will come before tomorrow.

Carpentier in America to Fight Gibbons.

Naming Neff for President Arouses Indignation of Ex-Students Living in Houston

AUSTIN, Texas, May 19.—Prominent Houston alumni of the Texas University wired Luther Stark of Orange, chairman of the University Regents, to resign from all University positions or else they will not participate in the fund being raised for a stadium. They also request the resignation of Dr. Joe S. Wooten of Austin as Regent. The action is the result of the regents tendering the University Presidency to the governor.

French Sport Fans Hiss U. S. Flag When Americans Beat Them at Rugby

PARIS, May 19.—Followng official expressions of regret for the conduct of the crowd after the American rugby team had defeated the French team, 17 to 3, in the Olympic championship match yesterday, it is probable that the unpleasant experience of the Americans may be officially forgotten.

Most of the Paris papers today deplored the incidents that occurred during the match and after it when the American flag was hissed and jeered as it was pulled to the top of the staff, when the strains of the Star Spangled Banner were almost drowned out by jeers and when two American students were knocked out by cane wielders in the stands.

Paris papers agreed that the Americans played cleanly and that the hostility of the crowd was deplorable.

Franz Reichel, secretary of the French Olympic committee, said the "action of the crowd was abominable." He was at a loss to offer an explanation for the feeling against the Americans and he asked the players to believe that the demonstration did not represent the feeling of the better element of the French people.

Rene Lassore, captain of the French team, said his players had no cause for complaint. "We were beaten," he said, "by a better conditioned team. We were beaten fairly and I can't understand what caused the crowd to act like it did."

Charles H. Sherrill, New York, a member of the International Olympic Committee, said that the crowd was very unfair and that it was the cleanest game of rugby he ever had seen.

The American players were so overjoyed at having won the championship by such a decisive score against one of the finest teams in Europe that they were inclined to "let it go."

After they had been cooled off, the American players felt so good that they accepted an invitation to attend the banquet given by the French Football Federation.

B. F. Larson, of Provo, Utah, and Gideon W. Nelson, De Kalb, Ill., two American students who were knocked out in the stands when the flag was hissed, were not seriously injured.

Nelson was around today looking for a "big fellow with a lot of whiskers," who bounced a cane off his skull.

Prizes Awarded At Shrine Show Saturday Night

The Mexia Shrine Club closed its Circus in Mexia Saturday night to a packed tent. The crowds lingered until the midnight hour and were even then reluctant to leave.

The popularity campaign which was conducted by the Shriners during the week of the circus and participated n by several Mexia ladies, closed at 4 o'clock Saturday afternoon to afford the judges ample time to make a correct count of the votes. Each ticket sold by the young ladies during the week counted as two votes in the campaign.

The prizes were awarded at the circus tent Saturday night and the following is the result of the efforts put forth by three young ladies remaning in the contest to the end:

First prize, diamond ring—Miss Jessie Mae Sherrer.

Second prize, string of pearls—Miss Ann Krinshaw.

Third prize, beaded bag—Miss Elise Gibson.

Miss Dorothy Flynn, who was a contestant early in the race, withdrew during the week and turned her support to Miss Sherrer.

We are informed by an official of the Shrine club this morning that these young ladies have won the deep appreciation of the Shriners for the important part they played in making the undertaking a financial success.

A complete check of the profits of the show have not been made at this writing, but it is known that the circus was successful, even beyond the expectation of some, and the profits of the show are gratifying.

Many Shriners, ladies and friends of the organization are to be lauded for their hard work and co-ojeration during circus week and the Mexia Shrine Club makes the statement that Mexia shall not be disappointed in the organization doing its bit for civic progress in Mexia.

The President of the club will have a statement to make to the public at a later date as to what the Shrine Club can and will do for Mexia.

This, like all other organizations in Mexia can only do for Mexia what she will let them and without the whole hearted support of the community they will be held back in their progress.

MINERS STRIKE IN GERMANY THREATENS TROUBLE

By CARL D. GROAT
(United Press Staff Correspondent)

BERLIN, May 19.—Desperation has seized the striking miners of the Ruhr. Their women folk are showing the way to violence.

The strikers refused flatly to accept an arbitration award which lengthens their hours; the mine owners, meeting at Essen, accepted the arbitration. The government, according to custom has no choice but to declare the award binding.

Tremendous bitterness, suffering and hunger among the strikers and their families makes it seem doubtful, however, that the Government's declaration will have any effect.

Wives of the miners took the initiative in sabotage. At Gelsenkirchen angry women stormed the City Hall, demanding issuance of rations.

Rioting, led by miners' wives, broke out at Rotthausen and police with drawn batons had to intervene.

In the mines of Hattigen, women rolled up their sleeves, seized rakes and picks and hauled fires from the pump furnaces, so that the mines are in great danger of being flooded. They bandished heated rakes in the face of men strikebreakers, driving the latter from the mines.

SUMPTER STREET SCHOOL PLANS OUTDOOR AFFAIR

Friday night, May 23rd is to be the big night of the year at Sumpter Street School when the pupils of that institution will present an out door exhibition in front of the Sumpter School building. It promises to be one of the most unique and enjoyable affairs ever staged by Mexia school children.

About 107,200,000 tons of stone were quarried in the United States last year, the greatest amount ever known, exceeding the former record year, 1916, by nearly 17 per cent.

1,000 Men Thrown Out Of Work By Big Blaze Of Spectacular Extent

NEW YORK, May 19.—Firemen traveling on huge moving cranes battled flames early today which caused losses to the plant of the Federal Ship Building Company, Kearny, N. J., estimated at $1,600,000.

Four moving cranes in one of the buildings were used as fighting tops and from these vantage points firemen shot streams of water into the burning plate shop and pattern building.

More than 1,000 men were thrown out of work temporarily by the blaze.

Humble Company Posts Price of Crude Back

The Humble Company today announced an advance of Meia and Powell crude amounting to 25 cents. The Magnolia is understood to have followed suit. The Humble Company's order is retroactive, dating back to several days ago when this company and the Magnolia posted 25 cents reduction on Mexia and Powell crude. No other companies posted reductions so the new price is the same as formerly paid for crude products from these two pools, $2.00 per barrel.

U. S. AIRMEN REACH ISLAND

TOKIO, May 19.—The American flyers arrived at the Island of Yetoforu this afternoon.

AMBASSADOR TO JAPAN SEEKS TO RETIRE

By A. L. BRADFORD
(United Press Staff Correspondent)

WASHINGTON, May 19.—Cyrus E. Woods, American Ambassador to Japan, has asked to be relieved of his duties in Tokio.

His resignation, however, has been tendered, it was officially explained here today, because of the ill health of Mrs. Wood's mother and has no connection whatever with the present crisis in relations between the United States and Japan over the Japanese exclusion provision of the immigration bill.

Oscar Sanders, of Waco, was in the city Monday on business.

Germans Load Communists On Trains for Free Ride in Keeping Down Disturbance

BERLIN, May 19.—Something newday they were loaded aboard the trains in the way of combatting anti-monarchist demonstrations by Communists and transported back to Berlin.

was tried out with success by the safety police Sunday. Several hundred Uhlans and Fascisti succeeded in special trains were run between this celebrating their "Deutscher Tag" in city and Fuerstenwalde, and as fast the great hall at Fuerstenwalde while as groups of Reds showed up at the the police repulsed successive waves of latter town and attempted to break up attacking Communists. Three police- "Duetscher Tag" celebrations yester- men were knifed during the day and night, while perhaps a score of Communists were wounded.

French Flier Reaches China In Flight Around World

PARIS, May 19.—Captain Pelletier d'Oisy, French flyer, has arrived at Canton, China, on his flight to Japan from Indo-China which he reached last week.

AMERICANS NOT TO ASK FOR WAR AGAINST FRANCE BECAUSE SPORTS HOOTED WHEN U.S. TEAM TRIUMPHED

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, May 19.—No action will be taken by the American Olympic Committee as a result of the anti-American demonstration in Paris during the rugby championship match until a report has been received from American representatives in Paris, it was said here today.

Even after the reports have been made it is not probable that any serious break will come between the French and American officials as there is a disposition here to regard the incident as being a demonstration of feeling from only a small part of a very large number of French people.

If the French Olympic Committee officially apologizes for the hissing of the American flag and the jeering of the Star Spangled Banner, the American committee may forget the whole incident and accept it as something that might have been pardonable under the circumstances.

Having accomplished their chief purpose in winning the championship and after completely vindicating themselves against the charges that they were "rough necks," and bad players, the American players probably will be satisfied to accept the demonstration only as poor sportsmanship and not as an overt act of war.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia, I WILL"

A GROWING NUISANCE

The extensive distribution of circulars, booklets, pills, pamphlets and bulletins, along with almost every form of printed advertising device, on the streets and in automobiles in the business district of Mexia is becoming a nuisance of first rank. One can hardly go to his automobile without finding the seats and floor cluttered up with some sort of paper. On Saturdays the autoists upon returning to his car, after it has stood for a few hours in the business district, will find from one to a dozen papers of various kinds placed there by enterprising business men. The driver usually takes his hand and scrapes these out on the streets and in that way tens of thousands of circulars and the like are dumped onto Mexia streets every week of the world. They fan about in the business district by every wind that blows, increasing the unsightliness of the district and adding to the fire hazard of the place. Fire Chief Pittman is warning business men today against permitting trash and waste product to accumulate about their places. Efforts are being made to reduce the key rate, which promise satisfactory returns. Many business concerns know that they do not allow better business ideas prevail in this harem scarem distribution of their literature, but do so in self denfense. One firm puts out a circular or a tag of some sort and his competitor feels he has to do the same thing. Well distributed advertising pays well, it is true, but when a merchant places a thousand circulars in automobiles, it is possibly true that less than ten per cent of them are ever read. This means waste, loss in time and loss in money.

In the larger cities of the State, city authorities long ago saw the menace in the practice and by ordinance forbade the distribution of any literature pell mell on the streets. Newspapers cannot be scattered on the streets, no firm is allowed to sweep its trash out in the streets and there is no difference in the present practice of circular distribution here than that.

Mexia should have the same sort of ordinance, both for the protection of the business men and the public. All literature given away should be either handed to the person direct, mailed to him, or laid on counters inside doors and in the residential districts placed inside the screen.

LIMESTONE COUNTY BAR ASSOCIATION

Limestone County probably has more lawyers than any county in Texas not to be organized into a county bar association. Associations of this character have long been found helpful, both to followers of the profession and to the public at large. With the oil boom period past, a breathing spell is now afforded and the practicing attorneys of this section should organize as quickly as possible. An unethical lawyer is one that hampers the entire profession. With a bar association, judiciously handled the public could be protected against the unethical attorney. Only those who live up to the high and honorable ideals of the Texas Bar are usually admitted into these associations, forming county units. There are movements, too, for the good of the county which an organized bar may perform and suggestions given endorsement which would prove helpful to the public. Limestone County lawyers are urged to go into the subject and get together in a county bar and help more effectively in Limestone County betterment.

LA FOLLETTE LOOMS AS CONTENDER

There is now a pretty definite prospect that Senator LaFollette will head an independent ticket in the forthcoming campaign, even if he is unable to tour the country and make speeches. This word comes from persons intimate with Mr. La Follette, though it is part of his plan to make no announcement until after the Republican national convention.

There is a general demand among Republican farmers in the Northwest for LaFollett'e candidacy. They are ready to desert their own party. They complain that President Coolidge has the viewpoint of New England and has neither acquaintance nor sympathy with the problems and difficulties of western agriculture.

James R. Howard, former president of the American Farm Bureau Federation, though not friendly to LaFollette, is convinced, he says, that the Wisconsin Senator will be found as a candidate against Mr. Coolidge next November. In that event, Mr. Howard says, the President will lose Michigan, Wisconsin, Minnesota, the Dakotas, Idaho, Montana, Nebraska, Iowa and Washington.

Defeat or postponement of agricultural legislation upon which the heart of the West is set will be a further advantage to LaFollette and a corresponding detriment to Mr. Coolidge. And the Republican leaders friendly to the president are unwilling to enact such legislation before their national convention. They fear that it will offend the big special interests which have been objecting heretofore to the Government's extending any further financial help to farmers.

MR CHAPLIN'S FIRST PHOTO DRAMA

"A Woman of Paris," the first Charles Chaplin serious production for United Artists Corporation, will be the attracton at the National theatre, starting today for three days' showing.

This important announcement is made by Manager Pat Box, who at great cost procured for presentation this remarkable photoplay; the first dramatic contribution produced by the great genius of the screen—Charles Chaplin.

"A Woman of Paris," written and directed by Chaplin, marks a new departure in almost every element that goes to make up a motion picture. The treatment of the story is entirely different from anything heretofore seen in the photoplay theatre. While the theme deals with life as it really is, the psychological study presents life's problems from a viewpoint that is more one of understanding than of preachment. The story unfolds an exquisite tapestry, woven around a woman's soul naked in its sincerity though clother in its individuality.

Almost an entire year was consumed in the making of "A Woman of Paris" and while there are no huge sets, no mob scenes, no elaborate mechanical effects, the time devoted was in the perfection of the action and the fidelity to detail in the treatment of the story.

Edna Purviance, who has been identified with Chaplin n almost all of his comedy productions, rises to great heights in her career as the star of "A Woman of Paris." Unthought of qualities of histrionic capabilities have been revealed under the careful direction of Mr. Chaplin. Adolphe Manjou, well known screen actor, plays the leading male role, while other important members of the cast include Carl Miller, Lydia Knott, Harry Northrup, Malvina Polo, and others well known in the picture world.

CENTRAL TEXAS PRESS
By N. P. Houx.

MEMBER TEXAS PRESS ASSOCIATION

Teague has a new paper just started by the Russell Printing Company, the first issue appearing Friday, May 16, and if it keeps up to the standard set at the start it is going to be a humdinger. The issue before us is filled with good reading matter and a liberal amount of fat looking ads, and would be a cerdit to any town. The editor, F. B. Russell, is an experienced newspaper man, formerly of the Trinity County News, and is competent to run a good, live weekly home paper. We gladly extend the hand of fellowship to him as a citizen of this section and hope that his new paper will live long and continue to prosper.

When McAdoo shakes hands with the populace he uses both the right and left. And it may have been his ability as a left-hand shaker that brought him the forty Texas votes.—Kosse Cyclone.

Like a fellow we once knew in Austin who played keno with both hands, and he kept both busy. Mr. McAdoo seems to be a good mixer, and that is what wins in politics.

Mr. Coolidge has discontinued shaking hands with visitors but will permit them to file through his office and see him at work, probably feeling that the sight of a Washington official at work ought to be sufficiently novel to satisfy anybody.—Teague Chronicle.

Those Washington fellows have been working all right—working the people, and the oil magnates.

Farmers are busy with their crops; carpenters, painters, brick masons and all others, with one exception, are busy in town. The Sons of Rest stand idly by and look upon the industrial stride with calm indifference.—Wills Point Chronicle.

And even the Sons of Rest keep busy—doing nothing—which is about the hardest work a working man can engage in.

These days are getting longer and warmer all the time, and the banks of the river and creeks are lined with people angling for the sly fish. Most of them come home just like they went away, but still have hopes of catching something the very next time they go fishing. That is all that makes a man believe that life is worth living. He has hopes that next year will find him in better condition financially, physically and in every other way. That is why he continues to go fishing and hopes to land some sure enough worthwhile fish.—Kilgore Chronicle.

After all this good old world seems to be full of optimists—fellows who are looking forward to something better, whether it ever comes or not. Come to Texas.

From the looks of his last week's paper, it seems that Brother Houx of the Mexia Herald has gone into the egg business. The copy reaching us was covered entirely with the contents of an egg, probably having come in contact with somebody's setting of eggs being shipped via parcel post.—Franklin Texan.

Or maybe some fellow had used your copy for a napkin to wipe off his chin after a good spring breakfast.

Our position simply is that the bobbings left at the bobber shops should be made into wigs for the baldheads.—Snap Shots.

Then we could all be amply supplied with hair. We are patiently waiting for ours.

Albert Luker, editor of the Grapeland Messenger, has got himself elected mayor of his home town and in the issue of the paper carrying the news he has a story about one of the poultry raisers feeding his hens on corn mash and juniper berries and producing real eggnog. Luker claims every egg is a jag and we suggest that he ship a few cases to Amarillo in June to further his campaign for president of the Texas Press Association.—Sam Miller in Mineral Wells Index.

And just to think, we have made no preparations to attend that meeting. These "entertainment" schemes should be published earlier in the game and allow "all" to take advantage of the opportunity.

You've gotten a chain letter I am sure, for mails are flooded with them. We discarded ours in the wastebasket and advise others to do the same, however, advice is cheap and you can do as you please.—Bryan Eagle.

Yes, we got one that said if we did not pass it along within twenty-four hours some bad luck would forthwith overtake us. We didn't "pass" it, and sure enough the bad luck came right along. Our oil well has not yet come in.

The News' advice to young men around Teague is to stick to their jobs. By working hard eight hours a day for a few years they may get to be boss—and then they can work twelve hours a day.—Teague News.

Especially if they enter the newspaper game. Russell seems to know how it is.

The Lone Star Circus goes from here to Marshall where a week of celebration is planned next week.

PRESIDENTIAL POSSIBILITY

EDWARD I. EDWARDS

ADVISE AS TO OCULAR HEADACHE

In the course of an article on "Headaches," by Woods Hutchinson, M. D., in the New York American, he refers to eye troubles as follows:

"There is not more need to fear that a child will become 'dependent' on glasses prescribed to help his eyes than there is that he will become dependent upon good shoes to protect his feet. Both items are necessary for his complete comfort, or they would not exist.

"Nothing will bring no more persistent and disabling headaches than some defects of vision, and no type of headache can be more promptly and permanently cured than this one when proper measures are taken—and this means the fitting of corrective glasses.

"Another form of headache, which is more or less optical in origin, is that due to 'train sickness.' Quite apart from the cinders and dust and heat and glare of unshaded light, there is the constant flickering and shifting of the scenery close to the track. This is extremely fatiguing to the eye, which vainly tries to record all the objects whirling by so close at hand, and becomes thoroughly exhausted in the process, while if an attempt is made to read very long at a time the constant, though infinitesimal, vibration of the printed page is almost as bad.

"As usual, the best path is the middle one: Look out of the window a good deal, but keep the gaze largely upon distant objects, which do not seem to change their position so fast as those near at hand. Read a little by way of variety, and occasionally close your eyes for a complete rest."

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, billiousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Bennetts Drug Store.

CENTENNIAL MEETING IS PLANNED

(Continued from Page One)

expositions that ever have been held," it was declared yesterday by Cato Sells, Chairman of the Texas Centennial Celebration, when he announced the meeting of the seventy-one now chosen, Directors in Austin on May 21 and reviewed briefly the progress of the Centennial idea.

There is no doubt in Chairman Sells' judgment that when the governing board of Directors of one hundred representative Texans has been completed, it will altogether be the strongest group of citizens ever assembled in Texas for the carrying out of a definite undertaking. "Already it is manifest," Chairman Sells said, "that the Centennial will have the benefit of the best minds and stoutest hearts in Texas. And it is clearly apparent that the country at large expects Texas to put this Centennial Celebration over in a way that will be typically characteristic of Texans and flavored with the bigness of Texas. Not only is the outside world grasping the possibilities of the Celebration but more and more Texans themselves are awakening to the tremendous possibilities of the Centennial idea. The fervor of the citizens of Texas is being universally aroused and I am convinced that presently we will be exalted with the pride of having accomplished the most extraordinary celebration of a great Anniversary that this country, if not the world has ever seen. It is not too big a thing for Texas to do if we should stage within our borders a celebration that has never been matched in brilliancy of conception nor in breadths of attainment. Exact time and place are matters of secondary moment right now. The immediate task is to lay the foundation for something worthy of this great Commonwealth and its one hundred years of unparalleled achievements."

Machinery for the creation of the governing board of the one hundred outstanding citizens was set up at the State Convention of Texans held at Austin on February 12, when the Texas Centennial Celebration was definitely determined upon. The Senatorial Districts having selected all of their sixty-two Directors, and Governor Neff, Lieut. Gov. T. W. Davidson and Speaker of the House, R. E. Seagler, having named the members of the board assigned to them for appointment, there remains only twenty-nine Directors to be chosen from the State at large by the seventy-one constituting the now selected nucleus of the Centennial Board.

The momentum acquired by the Texas Centennial since it was proposed has been unusually interesting. Not an inactive day has passed since last November when the 10th District Associated Advertising Clubs of the world met in Convention at Corsicana, the home of Secretary Lowry Martin, and promulgated the Centennial idea. Indefatigable activities have continuously obtained sowing seeds of the Texas Centennial. By February 12 there was a ripe harvest, when nearly a thousand representative Texans accepted invitation to gather at Austin and make further plans. A definite preliminary program was initiated in that session. Since that time there have been formal meetings and informal conferences in practically every county in Texas and in every State Senatorial District.

"The idea has taken with exactly the interest and enthusiasm we would wish," Chairman Sells said, and the seeds of the Centennial have been sown everywhere. One of the big by-products of the Centennial should be the building of the spirit of comradeship with the countries of Pan-America and that conception already is in the flower. As a member of Uncle Sam's family, we are close neighbors to all the countries that constitute Latin America. In commerce our interests are compellingly sympathetic and as Texans and Americans we have friendship with those neighbors of ours to the South. Through the medium of a great exposition to be constructed in Texas we can lay the sills of a better understanding with all Pan-America to the mutual advantage of all concerned."

The following Texans have been selected as members of the Centennial governing board and will attend the meeting at Austin, May 21st:

Senatorial District Members:

F. L. McGee, Daingerfield; A. C. Stuart, Texarkana; Frank Soape, Henderson; Miss Margie Neal, Carthage; Eugene H. Blount, Nacogdoches; Kester Lenman, Lufkin; E. E. Plumley, Beaumont; W. E. Lea, Orange; W. L. Dean, Huntsville; Judge T. P. Buffington, Anderson; A. A. Allison, Corsicana; E. B. LaRue, Athens; Sam R. Greer, Pittsburgh; J. V. Greer, Canton; Chas. E. Terry, Clarkesville; W. EX-SHERIFF ANDERSON OF HARRIS COUNTY GIVES TANLAC CREDIT

Man Who Held Public Office Over 27 Years Says Medicine Restored His Health and Strength 5 Year Ago and Has Helped Keep Him Well.

"I said a lot in praise of Tanlac some six years ago, but not half enough, in view of what it did for me," is the high tribute paid the famous medicine, a few days ago, by Hon. Archie R. Anderson, ex-sheriff of Harris County, Texas, who resides at 1505 Austin St., Houston.

Mr. Anderson is unquestionably one of the best known and most popular men that ever held public office in the "Lone Star" state. After serving as deputy sheriff of Harris county for 12 years, Mr. Anderson was elected chief of police of the city of Houston. He had occupied this office but a short time when the sheriff of Harris county died and Mr. Anderson was then appointed by the Commissioner's Court to serve out the unexpired term of sheriff. He was honored with re-election as sheriff seven different times and served the people in this important office 15 consecutive years.

In 1912 Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this city. Speaking further of his experience with Tanlac, Mr. Anderson said:

"Before taking Tanlac I was run-down and had no appetite. I had the worst form of indigestion and could not eat fried foods or pastries at all. I suffered all the time from gas on the stomach, which frequently caused severe pains. I also suffered with the worst sort of neuralgic pains and nothing seemed to help me only in a temporary way, until I took Tanlac.

"Then I read the statement of a Georgia sheriff, who had been relieved of trouble like mine, I just felt like I couldn't go wrong by taking Tanlac, and it has done even more for me than I expected. I felt better after the first bottle and the complete treatment of six bottles made a new and different man of me. I never felt better in my life than I did after taking Tanlac. And although five years have passed since Tanlac straightened me up, my health has continued good and my stomach as sound as a dollar to this good day. I am glad to endorse Tanlac because it does the work and does it well."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills for constipation. Made and recommended by the manufacturers of TANLAC.—(Adv.)

Ludwick had things going his way until the eighth Friday. He went wild long enough to fill the bases and then Fowlkes pulled him and sent in Peel who held down the Rangers until the timely hitting of Fowlkes saved the day.

It has got to where its a safe bet for a long hit when the skipper gets up. And when he connects they go somewhere.

American Will Start Olympic Games.

JOHN J. McHUGH

Asked by the French Committee in charge of the Olympic Games, in Paris, to select a starter for all the events, the American Committee has picked John J. McHugh, of New York, who has started 150,000 races in the past twenty-three years, including the Olympic Games in St. Louis in 1904. He is connected with the Public Playgrounds System in New York and is said to have fired more shots than any other man in the world.

Ignorance of Law Excuses No One

BEAUMONT, May 19.—E. B. Kelso, Jefferson county offical whose duty it is to issue car license plates, is looking for a slogan—some method of reminding the motorists of that county to bolt the plates on their flivvers securely.

A total of 900 car owners or one out of every 15 have applied for duplicate numbers since January 1, according to Kelso who adds that but a few of this number have asked for new plates to replace others which were unserviceable or stolen.

Kelso adds that with few exceptions those applying for new plates are surprised to learn that they must pay for new duplicate numbers, the general belief being that if a number once paid for is lost the duplicate will be issu without cost.

Regarded as impregnable against attacks by land or air, the Bank of France has been supplied with a vault having a bomb proof roof and surrounded by water.

The Idian telephone department has extended a trunk telephone line to Rangoon and is planning to extend it to Mandalay.

"Labor Saving" Device for Lazy Lounge Lizzards

DALLAS, Texas, May 19.—A slot machine which sprays fastidous gentle men with imported perfume at ten cents a squirt is doing a flourishing business in the men's room of a downtown hotel here.

Jelly-beans and others, grooming for an engagement with their fair ones, have been seen to put the finishing touches on their immaculate selves by walking up to the automatic sprayer, dropping in a dime and turning the knob.

The machine hangs on the wall near the bootblack stand just off the main lobby. For the drop of a slug it exudes sweet odors of Black Narcissus.

But like the automatic music box the man who drops the slug doesn't get a monoply on the returns. Swarms of lobby leeches sniff the exotic armoa without investing a dime.

About 107,200,000 tons of stone were quarried in the United States last year, the greatest amount ever known, exceeding the former record year, 1916, by nearly 17 per cent.

THANK YOU!

I wish to take this means of thanking everyone who assisted me in any way in winning first place, (which was a diamond ring) given by the Mexia Shrine club in its popularity contest. Thanking all, I am

JESSYMAE SHERRER.

The Spanish government match monopoly has been extended to include automatic lighters.

An engine for ships has been invented in which the lower half of each cylinder is operated by oil on the Diesel engine principle and the upper half by steam.

The population of northern Manchuria has increased from 2,000,000 to 12,000,000 since a Chinese railroad began to operate 1100 miles of line in that region.

Y.M.B.L to Put On Trade Trip to Nearby Towns

WACO, May 19.—An automobile trade trip, the special purposes of which are to cultivate closer relations with towns visited, and bring the Cotton Palace still nearer the people of this section, is set for Thursday, May 22, under auspices of the Y. M. B. L.

The committee in charge of the day is composed of Tom Wolfe, H. L. Davis and W. T. Durham, and they state that the 22 automobile firms of the city have agreed to send representatives on the trip with new model machines, and that letters have been received already from the mayors of several of the towns to be visited, expressing great pleasure over the coming of the Waco people. This trip would have been in evidence sooner but for the Brownwood visit.

Chairman Tom Wolfe said Saturday that the start will be made from the Y. M. B. L. at 7:15 o'clock Thursday morning, and urged that business men attend. A visit will be paid to Prairie Hill, Coolidge, Mexia, Groesbeck, Kosse, Thornton, Reagan, Marlin, Perry and Riesel.

"This is only a 9-hour trip and can be made easily in the day," said Chairman Tom Wolfe. He said that a band will be taken if possible, and dinner will be enjoyed at Groesbeck.

Cotton Palace banners will be provided for marchers, and a great day is expected. There will be room for a number of persons who haven't cars, it was stated.

"Let every business man who can do so attend, and cultivate closer relations with these good people, also boost the Cotton Palace," said Chairman Tom Wolfe of the Y. M. B. L. committee.

Mexia Boys Are Expected to Put Up In Business

Within a few days all city schools will be out for the session. Then Mexia may expect to witness a revival of the usual summer pursuits of boyhood. Such pursuits have gone a long way since the days of Tom Sawyer and Huckleberry Finn. Even these two adventurers never felt the thrill of being a purveyor of soda water to all the other boys in the neighborhood. And in this Mexia's youth have something on fiction's most famous boy characters. "Setting up" a stand has become one of the leading outdoor sports. In a few days, the citizens will expect to find them all over town. Working capital is not a great difficulty. Almost any boy can talk his dad out of 60 cents. And that's enough to start the venture. This will acquire ten cents worth of ice and leave a half a dollar for soda water. The rest is just a question of foraging. The family washtub is a convenient place for icing the beverage. A couple of soap boxes bursted up and nailed together, a grass sack for a roof, and the thing is done.

PLAY AT SHILOH

A play, "The Old Fashioned Mother," a comedy drama in 3 acts, will be staged at Shiloh in school auditorium Saturday evening, May 24th. Play given under auspices of Ladies Missionary Society of Ben Hur. Full nights performance. Admission 15c and 25c. Proceeds to be divided. (19-21-23)

OKLAHOMANS SEE PROSPERITY ON FARM LAND OF STATE

OKLAHOMA CITY, May 19.—Oklahoma farmers are faced with the brightest crop prospects of a decade on the basis of State-wide crop reports in the hands of the State Board of Agriculture, according to John A. Whitehurst, head of the department, today.

General rains during the last three months has boosted the winter grain crops and conditioned the soil for rapid growth of spring-planted crops.

Harvesting will start between June 1 and 10, Whitesurst said, upon the largest wheat crop the State has known in the last five years, estimated at 44,847,000 bushels, an increase of 23 per cent over last year. Greater yield per acre is responsible for the increase, it was indicated, as the acreage in approximately the same as in 1923. The State crop will average 13.5 bushels an acre, according to departmental predictions.

Questionnaires were pouring into the State Department of Labor today indicating the number of harvest hands that would be required for the wheat harvest in the various counties. No statement as to the number will be available, however, until answers have been received from all sections, according to departmental officials. Wages will be between $3 and $3.50 with board, for harvest hands(it was estimated.

Cotton was not sufficiently advanced to warrant a prediction, Whithurst said, cool rainy weather has necessitated replanting in some parts of Southern Oklahoma where the crop is above ground. The State's cotton acreage is slighrly in excess of that of last year, reports indicate, but may fluctuate with the progress of the growing crop.

Poor stands may be broken and replanted in forage feeds, it was indicated.

Corn is 89 per cent normal with an estimated yield of 50,000,000 bushels in prospect and the oats and rye have high standing. Chinch bugs have been reported from scattering communities in the southeastern part of the State with some damage to oats and corn, but meat has escaped harm, Whithurst said.

Pastures are generally good due to heavy seasonal rains and live stock ranks proportionately with the amount of forage available.

OSCAR UNDERWOOD.

American Patriots Since Revolution Have Received Bonus of Some Sort For Part Played in Preserving Nation

Argument for the "Bonus"

By GEORGE WASHINGTON
(From an appeal in behalf of his soldiers)

It is more than a common debt; it is a debt of honor; it can never be considered as a pension or gratuity nor cancelled until it is fairly discharged. . . .

No man will enjoy greater satisfaction than myself in an exemption from taxes for a limited time. . . or any other adequate immunity or compensation granted to the brave defenders of their country's cause

For his own services in the Revolutionary War General Washington received:

(1) A three thousand acre grant of land from the State of Virginia.

(2) Stock in the Potomac Canal Company valued at $10,000 from the State of Virginia.

(3) For "personal expenses" during the war, $64,415 in cash from the Federal Government, by Act of Congress.

Application for "Bonus"
By ABRAHAM LINCOLN

State of Illinois,
Sangamon County, ss:

On this 21st day of August, A. D. 1855, personally appeared before me, a justice of the peace, Abraham Lincoln, aged 46 years, a resident of Sangamon County, in the State of Illinois, who, being duly sworn according to law, declares that he is the identical Abraham Lincoln who was captain of a company in the regiment of Illinois Mounted Volunteers, commanded by Col. Samuel M. Thompson, in the war with the British ban dof Sacs and other tribes of Indians on our northwestern frontier in A. D. 1832, known as the Black Hawk War. That he volundays; that he has heretofore made application for bounty land under the act of September 28, 1850, and received a land warrant, No. 52076. for forty (40) acres, which he has since located and cannot now return. He makes this declaration for the purpose of obtaining the additional bounty land to which he may be entitled under the act approved the 3d day of March, 1855.

(Signed) Abraham Lincoln.

Application for "Bonus"
By ULYSSES S. GRANT

State of Michigan,
County of Wayne, ss:

On the 6th day of November(A. D. 1850, personally appeared before me, a justice of the peace, First Lieutenant Ulysses S. Grant, aged 28 years, an officer of the Fourth Regiment, United States Infantry, who, being duly sworn according to law, declares that he is the identical Ulysses S. Grant who was a second lieutenant in the Fourth Regiment of United States Infantry, in the war with Mexico declared to exist on the 13th day of May, A. D. 1846, and continued in actual service during the entire period of the war.

He makes this declaration for the purpose of obtaining the bounty lands to which he may be entitled under the "act granting bounty lands to certain officers and soldiers who have engaged in the military service of the United States," passed September 28, 1850.

(Signed) U. S. Grant.

Application for "Bonus"
By ROBERT E. LEE

State of New York,
County of Orange:

On this 20th day of February, A. D. 1854, personally appeared before me, a special judge within and for the county and State aforesaid, Robert E. Lee, aged 45 years, an officer in the United States Army, who, being duly sworn according to law, declares that he is the identical Robert E. Lee who was a captain in the Corps of Engineers of the Army of the United States in the late war with Mexico.

He makes this declaration for the purpose of obtaining the bounty land to which he may be entitled under the "act granting bounty land to certain officers and soldiers who have been negaged in the military service of the United States," passed September 28, 1850.

(Signed) R. E. Lee.

Aug. 11.—Not more than twelve or fewer than eight days in advance of second primary election second statement of expenses in second primary election campaign must be filed.

Aug. 11.—State executive committee meets to canvas returns of primary elections. Majority of voters necessary for nomination. In cases where no majority has been received a second primary election shall be ordered to decide between the two candidates who received the highest number of votes in the first primary election.

Aug. 11.—Commissioners' Court may reform election precincts; serve notice of changes on the presiding judge of each precinct within ten days.

Aug. 12.—State convention of Republican party.

Aug. 13.—Not more than ten or fewer than three days before the second primary election, a voter expecting to be absent on the day of the election may cast an absent ballot with the County Clerk of the county of his residence.

Aug. 21.—County Clerk shall certify to each presiding judge the order of the Commissioners' Court, giving number, name and bounds of the election precinct and notice of their appointment as judges. This service is to be made by the Sheriff or a Constable within ten days after the entry of such order.

Aug. 18.—On or before this day persons who have moved from one election precinct to another must se- County Tax Collector shall furnish a County election board supplement list These provisions apply only to cities of 10,000 or more inhabitants. Tax Collector shall also furnish full list of qualified voters.

Aug. 23.—Second primary election day (Runoff.)

Aug. 23.—District conventions to nominate candidates meet on this day. (Both Democrats and Republican parties.)

Aug. 27.—On or before this day presiding judges shall make returns to county chairmen.

Sept. 1.—On or before this day Commissioners' Court shall file with County Tax Collector certified copy of order establishing election precincts.

Sept. 1.—State Executive committee meets to canvass returns of second primary.

Sept 2.—State Democratic nominating convention opens.

Sept. 3.—On or before this day final report of second primary election campaign expenses must be filed. cure record of such removal by County Tax Collector. Also, on this day Nov. 4.—General election day.

THE TEXTILE INDUSTRIES

(The Guaranty Survey)

The consumption of cotton by domestic mills in March showed a decline, at variance with the usual upward seasonal tendency. Some improvement has been recently reported by Southern mills, however, and raw cotton prices have moved within narrower limits.

In the silk industry also some unfavorable conditions have been accentuated in recent weeks. The decline in raw silk prices has continued since last October. The spring business of manufacturers has been generally disappointing. Conditions in the artificial silk industry are more favorable. American production in 1923, about two-fifths of the world's total, was more than 35,000,000 pounds, 50 per cent. more than in 1922 and about three times that of 1920.

The difficulties confronting producers of cottonseed oil have not been overcome. Prices of this product are largely influenced by the foreign demand and by the course of lard prices. Exports have been low in recent months and prices of lard have declined. Until these conditions are modified, prices of cottonseed oil may remain depressed.

An irregular decrease in freight car loadings has been in progress since the end of February, and for the four weeks ended April 12 loadings were about 2½ per cent. below the corresponding figures last year. It is significant, however, that "merchandise l. c. l." loadings have been well sustained. Decreased loadings of coal have been the principal factor in the aggregate decline.

FOR SALE OR TRADE

One acre of land (8 lots) one block from McKinney street, in Mexia, Texas. Has two small houses on it. Will sell cheap for cash, or will make terms, or will trade it in on a small farm. Apply to A. E. Epperson, at the Oasis Cafe, Mexia, Texas. wtf.

The Idian telephone department has extended a trunk telephone line to Rangoon and is planning to extend it to Mandalay.

Poultry Business Being Perfected

GOLDTHWAITE, Texas, May 19.—Goldthwaite's Chamber of Commerce, vitally interested in the progress of home industries, has closed a contract for the erection of a $10,000 cold storage plant to be operated under the auspices of the organization.

The erection of the plant follows a tremendous increase in the production of poultry in this section of the state, more than 30 carloads of turkeys being cleared out of Goldthwaite during the holidays last year.

The major share of the stock for the plant was sold to the farmers in the surrounding communities who, in addition to using it as a storage center for their turkeys, will also use it as a storehouse for perishable products during the growing season.

WATCHING THE SCOREBOARD

Yesterday's hero: Max Flack, St. Louis Cardinal outfielder.

He doubled in the ninth inning and drove in the two runs that beat the Braves, 5 to 4.

Marberry, Streetman, Texas boy and former Mexia Gusher pitcher, let the Browns down with two hits in eight innings but he blew up for four runs in the ninth and the Senators lost, 6 to 3.

Bob Shawkey scattered seven hits over nine innings and the Yanks beat the Indians, 8 to 0.

Brooklyn knocked Donohue out of the box in the eight and scored three the box in the eighth and scored three into a tie for first place.

Homers by Holke and Sand, two triples, a double and a single scored six runs in the second inning and gave the Phils an 8 to 5 victory over the Cubs.

The Red Sox knocked Cole out of the box in the seventh inning and scored three runs that beat the Tigers, 5 to 4.

Yesterday's Homers
Ward, Yankees, one.
Holke, Phils, one.
Sand, Phils, one.

With Babe Ruth at Bat.
First inning—walked.
Second inning—walked.
Fourth inning—lined to the pitcher.
Sixth inning—popped out.

STREETMAN DEFEATS TEAGUE SUNDAY AFTERNOON

Streetman defeated Teague Sunday afternoon in a game played at Teague by the score of five to four. Streetman ran in two scores in the ninth inning to win the game. Batteries for Streetman were Coleman and Sims; for Teague, Posey and Needham.

The Mexia I WILL.

Here's How to Call Out Fire Departm'nt In Case of a Blaze

Fire Chief Pittman called attention today to an increasing number of false alarms being turned in from various parts of the city. He is anxious to have his department respond promptly to every call made but while on a run following a false alarm some real fire may occur. Besides every run made costs the tax payers considerable money. This is true everywhere.

He does not wish anyone to be confronted by real risks and hesitate but states that if the person turning in the alarm will first be sure that there is a fire, it will be greatly appreciated by the people who keep up the fire department and equipment.

In case of fire, call "49" and state that there is a fire at, naming street, and at house number whatever it is. This will be mutually helpful and enable the department to respond promptly.

The left field wasn't safe territory for a hit to travel into Friday. Butler was back at his old position.

WAR DECLARED AGAINST GERM CARRYNG PESTS

A determined war on flies and all other germ-carrying insects and bugs is being waged throughout the Southwest. Startling disclosures of the grave menace to health of communities by practically every crawling, flying insect has finally aroused the people to the acute necessity of battling against these pests.

Of all the long list of disease-breeding insects, flies appear to top the list. It is estimated that the common housefly is responsible for more sickness and epidemics than all other menacing species of pests. The bugs and vapids that injure and destroy than only extermination of healththeir poisonous sting are high in the percentage column of ravages wrought to health; while roaches, water bugs, fleas and ants present in lesser degrees as positive a danger.

This insect-destroying campaign, however, is vastly more far-reaching vegetation, and moths, that wreck furs and woolen cloths are marked for elimination as well.

It has been proven that the pouring of oil on waters, covering of garbage cans and screening of windows and doors, while helpful in the fight against insects, does not overcome the menace. They will still breed and swarm around humanity and vegetation and accomplish their destructive and dangerous work.

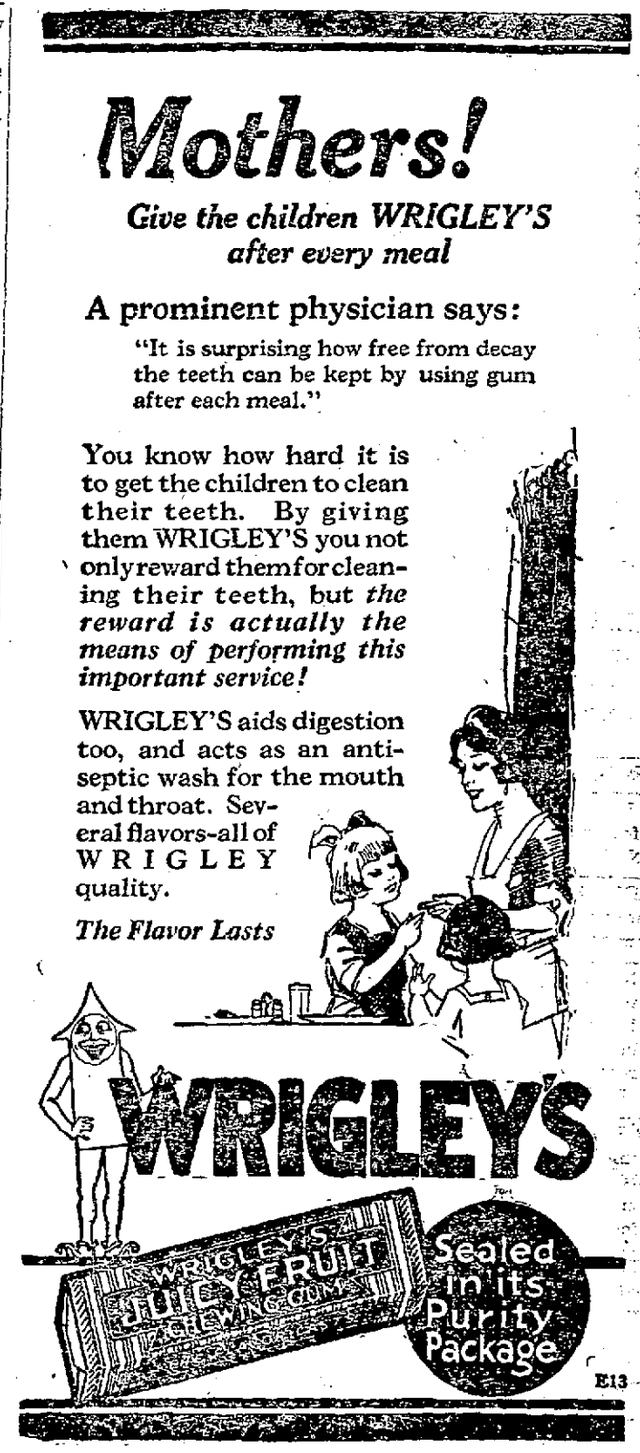
As a result, various preparations have been compounded and several are now on the market designed to kill the pests. Some of these are effective in varying degrees, some have been proven worthless, while a few are very efficient.

When it is realized that all flies, mosquitoes, roaches, water bugs, fleas, moths, bed-bugs, and lice breathe thru their skin it can readily be seen that a preparation that would instantly kill the insect must have a smothering effect. In other words, it must possess ingredients which fill the insect pores with poison that is absolutely harmless to humans and therefore safe to use.

Such an insect-smothering preparation has been compounded that has the added advantage of killing the eggs before they hatch, by the same process of smothering through the pores of the egg covering, the embryo insect. This product, known as Fly-Flu, is now rapidly being distributed thruout this section.

A universal use of such a preparation should most certainly reduce this insect menace to the minimum. (adv.)

D. D. Lewis was here Monday from Waco.



Mothers!
Give the children WRIGLEY'S after every meal
A prominent physician says:
"It is surprising how free from decay the teeth can be kept by using gum after each meal."
You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but the reward is actually the means of performing this important service!
WRIGLEY'S aids digestion too, and acts as an antiseptic wash for the mouth and throat. Several flavors-all of WRIGLEY quality.
The Flavor Lasts
WRIGLEY'S
WRIGLEY'S JUICY FRUIT CHEWING GUM

MARIA DEL PILAR MORENO

Fifteen-year-old Maria del Pilar Moreno, recently acquitted in Mexico City on the charge of murdering Senator Tejeda Llorca, is the national heroine in the Southern Republic. Senator Llorca had killed her father, but was immune from arrest because of his official position. The girl thereupon waited in front of his home and killed him. She received tremendous applause when freed and was showered with flowers.

CITATION BY PUBLICATION
THE STATE OF TEXAS

To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Limestone if there be a newspaper published therein, but if not, then in any newspaper published in the Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said Judicial District for four weeks previous to the return day hereof, B. D. Flickinger whose residence is unknown, to be and appear before me, a Justice of the Peace in and for Limestone County, at a regular term of the Justice's Court for Precinct No. 4 of said County, to be begun and holden at my office in Mexia on the 10th day of June, 1924, at ten o'clock A. M., to answer the complaint of Rogers Mercantile Company in a certain suit therein pending, in which Rogers Mercantile Company is Plaintiff, and B. D. Flickinger is Defendant.

Filed on the 26th day of April, A. D. 1924, and numbered on the Docket of said Court No. 732, the nature of the Plaintiff's demand being in substance as follows: On July 14th, 1923, at the instance and request of Defendant the Plaintiff took defendant's note in the sum of $44.50, due thirty days after date, said note providing for ten per cent attorney's fees if placed in the hands of an attorney for collection. Plaintiff says further that he placed the note in the hands of Keys & Mason, attorneys, for collection, agreeing to pay them the ten per cent attorney's fees provided for in the note, the same being reasonable attorney's fees; that the note is now past due and unpaid, and that Defendant, though often requested, has hitherto failed and refused, and still refuses, to pay the same or any part thereof, to Plaintiff's damage in the principal sum of $44.50.

Wherefore, Plaintiff prays that the Defendant be cited to appear and answer this suit; that he have judgment in the principal sum of $44.50, interest, attorney's fees and costs of suit, and for such other and further relief, general and special, in law and in equity, to which he may be justly entitled.

Herein fail not, but have then and there before said Court, at said regular term, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand, this 26th day of April, A. D., 1924.

O. KENNEDY,
Justice of the Peace,
Precinct No. 4 Limestone
County, Texas.

U. S. AIRMEN HOP OFF TOWARD JAPAN PROPER

LONDON, May 19.—America's around the world flyers hopped off today from Paramarshiru Island for Yetoforu Island, several hundred miles southward towards Japan proper, according to Central News dispatches.

The airmen took the air at 7:30 a. m. at which time weather conditions were reported favorable. Climate conditions will be dangerous to the American world flight after Tuesday, according to Japanese weather experts.

Lieutenants Lowell Smith, Erik Nelson and Wade Leigh, piloting the three American planes which crossed the Pacific hoped to reach Minato on the northeast coast of Hendo about Wednesday.

WALL STREET BETS ON DEMOCRATS

NEW YORK, May 19.—Bets at one to three that the next president will be a Democrat were offered in Wall Street. Odds on Coolidge's re-election were lengthened again, being five to nine that he stays in the White House. One to four on McAdoo's nomination with little money in sight.

TYPHUS MENACES GERMANY

BERLIN, May 19.—Signs of an epidemic of the dread Asiatic typhus is spreading in different parts of Germany. A heat wave is aiding spread of an epidemic. Two are dead and scores seriously ill in Bavaria. One hundred and sixty six members of Reischswehr are in the hospital. Putrid meat is believed to be the cause of the epidemic.

THAW APPEAL IS DISMISSED

PHILADELPHIA, May 19.—The appeal of Evelyn Nesbit for a new trial for Harry Thaw recently declared sane, was formally withdrawn. William A. Gray, attorney for Evelyn, said he thought he could win the appeal, "but my client does not wish further to do with it." Thaw is visiting his mother in Pittsburgh.

COERCION CHARGED BY REPRESENTATIVE

WASHINGTON, May 19.—Secret agents of railroads, using code telegrams, have attempted to coerce and mislead members of congress in order to defeat the Barkley bill abolishing the Railroad Labor Board, Representative Nelson of Wisconsin, charged in the House when debate on the bill was resumed. The bill is regarded as the opening wedge in revising the transportation act of 1920.

FLIGHT RESUMED AT 7:30 A. M.

PARAMASHIRU ISLAND, May 19.—The American round the world flight was resumed at 7:30 a. m. today. Lieutenants Smith, Nelson and Wade hoped off from Kashiwabara Bay for Yetorofu Island, 500 miles to the southward. They are endeavoring to reach Japan proper before threatened bad weather sets in.

MAN GIVEN BOND FOR MURDER

FORT WORTH, May 19.—Frank Yeager, 23, was at liberty on $10,000 bond today following the killing near here Sunday of Will Slaughter, foreman of the Corn ranch. Slaughter was shot during a quarrel with Yeager while the two men, with several others were hunting. Slaughter's mother lives in Houston.

TWO DROWN IN TRINITY

CROCKETT, Texas, May 19.—Mr. and Mrs. Louis Shupak were drowned in the Trinity river Sunday when their boat capsized.

SAFE ROBBERS OBTAINED $1280

DALLAS.—Safe robbers obtained $1280 from a Piggly Wiggly store here over the week-end.

HARVEY TO EDIT POST

NEW YORK, May 19.—George Harvey, former Ambassador to England, will become editorial director of the Washington Post on June 1, Edward B. McLean, owner of the paper, announced today.

TENNIS STAR WITHDRAWS

PARIS, May 19.—Mlle. Suzanne Lenglen, world's tennis champion, has withdrawn her entry in the French national championships because of illness. She hopes to be in condition to play in the Olympic games.

John A. Monroe of Greenville was a Mexia visitor Sunday.

J. V. Hankla, of Austin, was in the city Monday.

Mrs. M. S. Walsh of Dallas was a Mexia visitor Monday.

J. A. Neath was here Monday from Cisco.

Ralph W. Beck of Midlothian, was in the city Sunday.

H. S. Drumwright, of Cisco, was in the city Sunday.

TONSIL TALKS

Picnic or Funerals—

Sunshine or rain, good luck or bad fortune all mean the same to the man or woman who is suffering from some physical ill.

Come what may, they have no interest for anything. Their old pep and ambition is gone. They are languid, dull, listless. They endure needless and cruel pain.

Man alive! Why not snap out of it! Why continue to be a burden on your family, a hindrance to your community when renewed vigor is only a matter of knowing what shouldl be done?

Your health, that most priceless of all possessions, should be given the same intelligent consideration you would give a business deal.

You will be giving your health a square deal only when you realize that nine times out of ten it is your infected tonsils that is responsible for your nervousness, constipation, bronchitis, asthma, dispepsia, rheumatism, and other troubles.

You will be making the first step on the road to recovery when you understand it is the poison from your infected tonsils that lowers your blood resistance and causes your lack of vitality.

What would it mean to you to be able to eat and enjoy the stacks of food which that ravenous young boy of yours consumes? To indulge again in the sports of your youth, to sleep well at night, to actually grow young again with your children.

Is it worth a trip to our office for a free examination of your throat?

MITCHELL HOLDS OILERS ARGUIJO HAS BIG DAY AT BAT

CORSICANA, Texas, May 19.—Waco took the second game of the series Sunday, 10 to 6. Arguijo hit a home run in the eighth with the bases loaded. Barrett hit three times in three times at bat. Waco hit Arguijo hard in second, fifth and ninth innings. Mitchell was wild, but effective, except in the seventh and eighth innings.

Home run Arguijo. Two-base hits—Arguijo, Kelly, Lewis. Stolen base—McBride. Struck out—By Arguijo 3, Mitchell 7. Bases on balls—Off Arguijo 2, Mitchell 8.

Mrs. Theodore Klug, Sr., accompanied her daughter, Mrs. R. P. Forrest, to Cleburne Monday morning.

John Hurley of Waco, was in the city Monday.

J. P. McPherson, of Waco, was a Mexia visitor Monday.

D. D. Lewis was here Monday from Waco.

S. C. Walker, of McGregor, was in the city Monday.

CARPENTIER AND GIBBONS BEGIN REAL GRIND FOR BOUT

MICHIGAN CITY, Ind., May 19.—Tommy Gibbons and Georges Carpentier of France, who will meet here May 31, today entered the semi-final week of their training grind.

Gibbons, because he never gets out of condition, is rapidly rounding into fighting shape. The St. Paul boxer stepped on the scales yesterday and balanced the bar at 177 pounds.

Nearly $100,000 worth of tickets for the big scrap have been reserved, according to promoters. General sale of tickets opens today.

Great for growing boys who use up energy as an engine uses steam. Say "Kellogg's Corn Flakes."
And to get the genuine, be sure you always say the name in full.
